SILVER MEN

Indulge in Much and Big Talk

At Their Conference, Held at Washington.

Cleveland and Carlisle Severely Censured.

Resolutions Adopted for Free Coinage of Silver at 16 to 1 Without Waiting for Action of Other Nations.

WASHINGTON, Aug. 15.—The silver democrats continued their conference at the Metropolitan hotel at 9 o'clock today. The committee on resolutions and program being unable to report when the meeting was first called to order, it was suggested that the conference should listen to speeches by those present.

C. F. Cochrane, editor of the St. Joseph, Mo., Gazette, addressed the conference. He said it seemed anamolous that a meeting such as the present should be called, for he knew of no doctrine of the party which was not in consonance with the purposes of this conference. He said that congress was the place to look for the declaration of the party's belief and he declared that gold monometallism would be more dissatrous than war, pestilence and famine. It was important to settle first what was republicanism and what democracy; whether such men as ex Senator Thurman and Senator Harris, or Senator Sherman were to be leaders of democratic thought. He declared that the silver agitation would not die out, but would continue until the end for which it had been originated should be attained. Mr. Cochrane also declared against the perpetuation of national banks, whose tyranny, he said, was the greatest that any people would bear. The national banks were opposed to democracy. He was for a declaration for silver without regard to the prospect of success or failure at the polls.

Representative Neill, of Arkansas, announced his entire sympathy with the objects of the present conference. He wanted to see the free coinage of silver provided for at the next session, "regardless of the position of the distinguished citizen at the other end of the avenue," which sentiment was loudly applauded.

He declared the democratic party had no show in the next campaign if there were not a declaration for silver. Ex-Senator Fithian, of Illinois, denied that the free silver sentiment was dying out in that state. He said that all the democratic farmers, and 90 per cent. of the democrats of this state were silver men. He declared that Illinois would send a delegation to the next national convention favorable for free coinage at 16 to 1, independent of other nations. He declared that he had been defeated in the last election, not because of his position on silver, but because he had to bear the odium of an administration which was not democratic. (Applause.)

Representative Livingston, of Georgia, said that the time had come for another declaration of independence. "It is the purpose of the country from which I come," he said, "to prosecute and fight with their coats off and their sleeves rolled up and not to rest until the end. It was England's purpose," he asserted, "to control the United States, and finding herself unable to do so by arms, she had undertaken to do it by controlling our finances. Georgia was determined that the issuance of bonds should not continue." He declared the last bond contract, by which the Rothschilds had been engaged to protect our credit, the most disgraceful thing that had ever taken place in the history of our country. The cry for sound money was a subterfuge as all our people were for sound money. The prospect of an international conference is ridiculed.

Col. Cassey Young, of Memphis, who conducted the correspondence incidental to the preparations for the conference, said he had written 4,000 or 5,000 letters in connection with the movement for the conference. He had corresponded with representative democrats from thirty-eight states, among them Senators Morgan, Berry, Blackburn, Walthall, George Blanchard, Cockrell, Voorhees and Turpie, besides a large number of members of the house, who have sent regrets at not being able to be present. Representative Bryan sent a letter saying there was "no room in this country for two republican parties," and Senator Morgan sent in a telegram saying, "I will follow the old guard wherever it leads."

Colonel Young asserted that four-fifths of the democrats were friendly to free coinage, and he believed a properly organized movement would be irresistible.

Speeches were also made by Senator Call, A. A Lippscomb, of Washington; J. M. Hill, of Missouri; Representatives Jones, of Virginia, and Lockhart, of North Carolina, and Mr. Bodine, of Missouri. When Mr. Hill arose and some one asked his name, he said: "It is Hill, of Missouri—I thank God it is not Hill, of New York."

Mr. Hill criticised Mr. Cleveland's administration in severe terms, saying the president had betrayed the democratic party by a series of acts of perfidy and treachery which were without parallel, one of the principal of which acts consisted in his ignoring the bimetallic declaration in the last democratic platform. He declared there had been a bargain and sale by which the president of the United States had been turned over to the Jews of Europe and the gamblers of Wall street, the result of which would be that their children and their grandchildren would become hewers of wood and drawers of water. The bond transaction had been enough to consign Grover Cleveland and John G. Carlisle to everlasting political oblivion and shame. They would 'go down to the ages hand in hand amid the execrations of mankind as two of the most stupendous frauds of the century." He asked the reporters present to make especial note of the sentence. He denounced Senators Brice and Gorman as disloyal to the democratic party.

Ex-Representative Turner, of New York, was introduced as a new convert. He said he was a silver man and meant to remain so. He declared that an intelligent effort in New York would do wonders and predicted that the nomination of free silver candidates would not weaken the ticket in the east.

Mr. Lockhart advocated a campaign of appeal to reason and depreciated a resort to abuse and denunciation. He controverted the idea that silver coinage was a controlling tenent in the populist party.

It was almost 12 o'clock when the committee on resolutions filed into the conference room and Senator Daniel was recognized to make the report of the committee's proceedings. This was divided into two sections, one consisted of an address to the democrats and the other a plan of organization. He said the address was the same as that adopted by the democrats of Texas, Missouri and Mississippi. The address was read by Governor Stone, of Missouri, and is as follows:

The address issued disclaims speaking with party authority, the assemblage being a voluntary one, but strongly represents the opinion of the conference that the party should declare for free coinage of silver. The address concludes as follows: Duty to the people requires that the party of the people continue the battle for bimetallism until its efforts are crowned with success; therefore, be it

Resolved, That the democratic party in national convention assembled should demand the free and unlimited coinage of silver and gold into primary or redemption money at the ratio of 16 to 1, without waiting for the action or approval of any other nation.

Resolved, Second, That it should declare its irrevocable opposition to the substitution for money of a panic-breeding, corporation credit currency, based on a single metal, the supply of which is so limited that it can be cornered at any time by a few banking institutions in Europe and America.

Resolved, Third—That it should declare its opposition to the policy and practice of surrendering to the holders of the obligations of the United States the option reserved by the law to the government of redeeming such obligations in either silver coin or gold coin.

Resolved, Fourth, That it should declare its opposition to the issuing of interest bearing bonds of the United States in the time of peace, and especially to placing the treasury of the government under control of any syndicate of bankers and the issuance of bonds to be sold by them at enormous profit for the purpose of supplying the federal treasury with gold to maintain the policy of gold monometallism.

With a view to securing the adherence to and readoption of the democratic financial policy above set forth by the democratic national convention to be assembled in 1896 and of the nomination of a candidate for the presidency well known to be in hearty sympathy therewith, we hereby pledge our mutual co-operation and urgently recommend to our democratic brethern in all the states to at once begin and vigorously and systematically prosecute the work of a thorough organization, and to this end the adoption of the plan of organization herewith submitted is recommended.

The part of the report dealing with the plan of organization above referred to was read by ex-Senator Jarvis, of North Carolina, and is as follows:

Believing that a large majority of the democratic voters of the United States are in harmony with the sentiments expressed in the foregoing address, and knowing that a full and free expression of their views can only be ascertained and made effective through proper organized efforts, we recommend the following as a plan for such organization:

First. There shall be a national committee of democrats who are in favor of both silver and gold as the money of the constitution, which shall be composed of one democrat from each state and territory and the District of Columbia and the executive committee herein after provided for.

Second. That until otherwise ordered by the national committee Senators Isham G. Harris, of Tennessee; James R. Jones, of Arkansas, and David Turpie, of Indiana, and Hons. W. J. Stone, of Missouri; W. H Hinrichsen, of Illinois, and Cassey Young, of Tennessee, be, and they are hereby constituted the executive committee shall have full power, authority, and it shall be their duty, at as early a day as possible, to appoint the members of the national committee as provided for and to fill vacancies in the same.

Third. That said national committee shall have full control and direction of the patriotic effort of the bimetallic democracy of the nation to secure in the next national democratic convention the maintenance of the time honored principles and policies of the democratic party, and when the national convention committee herein provided for is not in session, the executive committee shall have all the authority and discharge of all the duties hereby conferred upon the national committee.

Fourth. It shall be the duty of the members of the national committee from each state immediately after his appointment to take such steps as he may deem best to organize the bimetallic forces of his state, and it is earnestly recommended that in each county and election precinct of each state, bimetallic democratic clubs be organized, and for this purpose he may appoint such committees and sub committees and canvassers as he may deem best.

Fifth. That fully realizing the fact that this nor any other plan of organizing can be successful without a hearty co-operation of the voters themselves, we urge upon every voter in every state in the union who is in sympathy with this movement and he wishes to restore permanent prosperity to his home and country, to lend his aid and influence to perfecting this organization, and that each of them shall enroll himself in some club.

The report of the committee was adopted without opposition, and after listening to a few brief speeches the conference adjourned sine die. Senator Daniel made the last speech of the meeting. He said: "I will only say that I am a democrat, and being a democrat, I could not help being for the solid, honest and ancient gold and silver money of the democratic party. The party of the people must stand for the money of the people, and whom God hath joined together Plutocracy shall not put asunder."

CLEVELAND, Ohio, Aug. 15.—Louis Gimm, the crack long distance bicycle rider of this city, who started at noon yesterday at the Cleveland Driving park to beat the twenty-four-hour record, ended his task at 12 o'clock today and smashed the American record. Gimm made 453 miles and 1,700 yards and rode the last ten miles in better than a 2:30 clip, running away from his pacemakers. Although he has taken very little rest, he seemed as fresh when he had finished as when he started. The American long distance championship was previously held by W. B. Twyman, of Chicago, with a record of 407 miles and 84 yards.

THE QUEEN'S SPEECH

Is Read in the English House of Parliament.

Her Views on the Armenian Question and the Atrocities Which Have Been Perpetrated in China.

LONDON, Aug 15.—After the house of commons reassembled today, the members were summoned to the house of lords with the usual formalities and the queen's speech was read by the lord chancellor, Baron Salsbury. It was as follows:

My Lord and Gentlemen:

The communications which I receive from foreign powers assure me of the continuance of their good will. I am happy to say that no international complication has arisin in any quarters calculated to endanger the peace of Europe. The war between China and Japan, which was in progress at the opening of the last session, has been brought to a conclusion by a peace which I trust will endure. I observed strict neutrality during the war and have taken no action in respect thereto except such as appeared to me likely to be favorable to a termination of hostilities. I deeply regret to say that the most atrocitious outrages upon a body of English missionaries are reported from the province of Fu Kien, in China. In reply to earnest representations addressed to the Chinese government by my direction, measures which I trust will prove effective, are being taken for the punishment of the murderers and all persons in any degree responsible for these crimes.

"The international troubles which have broken out in the Armenian district of Asiatic Turkey have been attended with horrors which have moved to indignation the Christian nations of Europe generally and my people especially. My ambassador and the ambassadors of the emperor of Russia and the president of the French republic, acting together, have suggested to the government of the sultan reforms which, in their opinion, are necessary to prevent a recurrence of constant disorder. These proposals are now being considered by the sultan and I am anxiously awaiting his decision."

The speech concludes with a reference to the incorporation of Beechaunaland into Cape Colony. The speech to the commons merely says that the estimates for the service of the year which were not voted at the last session will be laid before them.

The second portion of the speech says: "My Lords and Gentlemen—At this season of the year in will probably be found more convenient to defer to another session the consideration of any important legislative measures except those which are necessary to provide for the administrative charges of the year."

ALLEGED FORGER ARRESTED.

He Leads the Officers a Lively Chase Before Capture.

LEBANON, Ind, Aug. 15.—After a hunt of several days, James Sample, near Elizaville, has been captured and placed in jail to await trial for forgery. Last week he presented to Cashier Lane, of the First National bank, a note for $75, which he desired to sell. The man was unknown to the bank officials, but as the note was signed by Robert Stephenson, James Chalk and James King, prominent farmers of good, financial standing, it was purchased, and the young man promptly left town. The bank officials made inquiry, and soon learned that the note was a forgery. The police were notified, and began searching for Sample. Later it was discovered that he had purchased a buggy of Butler & Jett, and given two notes of $40 and $45 each, indorsed by James and Isaac Chalk, which were also forged. The officers followed Sample to Frankfort, and other surrounding towns, but he eluded them until Monday evening, when Policeman Caldwell captured him at his home, near Elizaville, but Sample escaped after being in custody but a few moments. He was afterward arrested at Kirklin, and he has made several attempts to escape since. When brought before Mayor Garrett he entered a plea of guilty, and was bound over to the circuit court. Sample has been in trouble before.

Billy Smith, a pugilist of this city, has been sent down to the City of Mexico to give a boxing contest with Jimmy Carroll before President Diaz's cabinet to show them that the sport is not brutal.

FIRE AT FINDLAY.

A Refinery Tank Explodes and Starts the Flames.

TOLEDO, Ohio, Aug. 15.—An explosion and resulting fire, entirely consumed the plant of the Peerless refinery, Findlay, with $60,000 loss, half insured. A benzine tank first exploded, cause unknown, and in an instant the building was wrapped in seething flames. Two stillmen, Wm. Adams and Wm. Bemis, were probably fatally injured. Ten stills caught next and one after the other exploded, sending flaming oil over the surrounding buildings and ground. Next ten tanks of crude oil, containing 12,000 gallons caught fire, sending up columes of flame 200 feet into the air. A mammoth tank of 30,000 barrels was fired into with a cannon, letting the oil run out, which caught fire. The oil is still burning and the smoke obscures the heavens for miles.

THE CASE CONTINUED.

Miss Lowry Asks Further Time to Procure Witnesses.

A Number of Firemen Promoted From Class C to Class B—A New Engine House.

The board of public safety held an important meeting last evening. Chief Hilbrecht was asked to purchase some new hose for the department. He reported, also, that Captain Schroeder, of engine house No. 1, had preferred charges against Fireman Ed Moody for absenting himself from the engine house without permission. Both men were cited to appear and explain matters more fully.

Estimates for the police and fire departments were considered and several recommended improvements talked over. The most important of these improvements will be a new engine house in South Wayne. The board will ask the council for money to put up the building, buy equipment and hire the necessary men to run it. The board is informed that the city owns a lot in South Wayne and Mr. Bash of the board of public safety, said if the lot was found to be properly located the new engine house would be built upon it, but if not, other property would be purchased for the purpose.

Chief Hilbrecht asked for two additional men for the fire department. The new telephone service will require one new man and he has a place for the other. Two or three more policemen are also wanted and the board will likely ask the council to vote the necessary funds for their employment. One of the new men, if any are granted, will be placed in Nebraska and one east of Hanna street, while places will also probably be made for others

The charges preferred against Police Officer Bowers by Miss Lowry were to have received further investigation by the board last night. Miss Lowry appeared, however, and asked that the matter be continued a few days because, she said, she was unable to secure the presence of some of her witnesses last night.

Miss Lowry, at the last week's meeting, testified that she had been informed that Mrs. Egg had callers at her home and that it was not just the place for a young lady to room.

Mr. Bash last night asked Miss Lowry if she remembered having given this testimony.

"I do," replied the young lady.

"But you still remained there?'

"Yes, sir. I was warned about a week previous to the trouble."

"Who warned you?" Mr. Bash asked.

"Do you want the name of the person who warned me?' Miss Lowry inquired.

"Yes, give us the name."

"It was Mrs. Lutz, wife of Phillip Lutz, who has a restaurant on Calhoun street."

Miss Lowry has stated on several occasions that she left the home of Mrs Egg just as soon as possible after she had been warned by Mrs. Lutz.

The board concluded its meeting by promoting nine fireman from class C to class B. This gives the men an increase in pay from $50 to $55 per month. The firemen who receive this advance are Edward E. Bissell, Meinhart Swart, Benjamin R. Stanberry, Gustave Hilgeman, Lewis J. Niemann, Frank J. Porison, William Hensell, M Baillie and Frank Albrecht.

The executive board of the Photographer's association of Indiana is in session in this city today. They are Messrs. Heimberger, Larrimore, Shores and Halloway. The object of the meeting is to arrange for the next meeting of the association.

A marriage notice in yesterday's paper, giving the name of Miss Anna Racine as one of the contracting parties, should have read as follows: "At the home of Mrs. William Kime occurred the marriage of Mr. Frank Patterson and Miss Anna Renier."

Messrs. Henry C. Graffe, Harry Graffe, Andy Glutting, Chas. A. Guild, Harry Harrison, Frank Iten and Al. Friend left yesterday for Cedar Lake, where they will spend a week.

Thos. and Edward Mungovan have returned after a pleasant week spent at the Gilmartln cottage, Rome City.

JUMPED FROM A TRAIN.

Wild and Hazardous Leap of an Unknown Man.

Springs From Passenger Train No. 6, on the Nickele Plate—Supposed to be Insane.

Yesterday afternoon as Nickel Plate passenger train No. 6, due here at 6:20, was flying along at the rate of forty miles per hour, about thirty miles from Chicago, the occupants of one of the coaches were surprised to see a passenger suddenly stand up, kick out a pane of glass and spring head first from the window. It was all done so quickly that no one had a chance to grab the desperate man. Several passengers sprang up and grabbed at the bell cord, but there was some delay in stopping the train. When this was finally accomplished the passenger backed up to the point where the man had jumped off but no signs of the individual could be found. By the track, where the earth was moist, could plainly be seen the spot where the fellow had alighted, but he had disappeared as completely as though the earth had opened and swallowed him.

A search was made in the tall grass and bushes, and then the task was given up, as it was plainly evident the man had hidden somewhere in the marshes.

The curious part of the occurrence is the fact that the man was not killed outright. Who he is no one knows. Conductor Urbans brought the man's baggage to Fort Wayne and this morning Officer Dora Hardendorf examined it at the Nickel Plate baggage room. It contained a valice and a blanket in which was rolled a lady's jacket. In the valice was some underclothing, eight rolls of bandages, some strips of linen, a bunch of absorbing cotton, some salve and liniment. Aside from this there was a lady's bracelet about which was wrapped a bill head from a San Jose, Cal., firm.

It is supposed the man is an invalid en route east from California and suddenly became insane. Although the railway officials have made diligent inquiry, no traces of the missing man have yet been found.

This morning Tom Wilkinson went north to look for the man, who was seen sitting on the Michigan Southern tracks near Hessville.

WITH A HAT PIN.

A Desperate Woman Makes an Attack On an Officer.

Sheriff Clausmeier Forced to Fight Against a Novel Weapon—Two Tough Characters.

Last night about 10 o'clock a telephone call was received from the western suburbs, stating that the sheriff and his deputies were wanted at the Getz brickyard, west of town, where two desperate characters, armed with revolvers, were demanding admittance to the Getz home. The sheriff, accompanied by Deputies Harrod and Wiley, went ont in haste. Arriving at the home of Mr. Getz, they were informed that the man and woman had been induced to go to the barn and sleep and could be found there. When the officers located the couple they at once showed fight. Mr. Clausmeier started to place the woman under arrest, but she sprang upon him with the ferocity of a tiger and using a hat pin endeavored to stab the officer in the face. While engaged in quieting the excited woman her husband suddenly sprang onto Clausmeier from behind and for a time there was a merry war. The deputies rushed to the sheriff's assistance and the two prisoners were soon subdued. They were brought to the station house and locked up. This morning before Mayor Oakley the couple said their names were William and Blanch Davis and that their home was in Indianapolis. They claimed to be hunting work. Yesterday the couple was seen on the streets and both were intoxicated. No revolver was found on their persons, although they had threatened to shoot Mr. Getz. The mayor sent the couple to jail for fifteen days each.

A SAD CASE.

Mrs. S. E. Rogers, of Grand Rapids, was in the city last evening, en route home from Carlisle, Ind., with her son, Wilkie, who is insane. The poor woman had run out of funds and the night police took care of her son and saw that both were provided with passes for the north. Mrs. Rogers and her son left for the north at 2 o'clock this morning.

AN INCENDIARY.

Yesterday morning about 3 o'clock some one set fire to a straw stack about forty feet from the fine barn on the premises of August Chevillot, in Jackson township. Mr. Chevillot is an early riser and discovered the straw stack on fire. He hastilly summoned his neighbors and after considerable difficulty succeeded in putting out the fire. The barn had a narrow escape.

The man was knocked down and suffered severe injury. Three ribs were broken and he was otherwise hurt. Fair and beautiful—the woman who keeps at a distance the complexion beautifiers, paints and powders, which show ruin the face. A healthy glow to the skin, a face without wrinkles, and sparkling eyes, will be yours if you keep the system and the special internal organs in good condition. The young girl, or woman, often grows pale, wrinkled and thin, eats little, everything wearies her, she complains of herself as aching and sore and as sleeping poorly. Often she is troubled with backache, or a tender spine, with a bearing-down weight in the abdomen, or at periods she may be irregular, or suffer extreme pain from functional derangements.

Dr. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., in his long and active experience, met many cases of this kind, for which he used a prescription which was found to cure such difficulties permanently in *ninety-eight per cent.* of all cases. Having proven so successful, Dr. Pierce put his "Favorite Prescription" on the market, and it is to-day sold more largely than any other medicine for the ills of woman.

For all functional derangements, displacements, ulceration, inflammation, and the catarrhal drain from the lining membranes of the special internal organs of women, Dr. Pierce's Favorite Prescription reaches the origin of the trouble, and corrects it.

MRS. CRIM.

MRS. MARY CRIM, of *Frankfort, Franklin Co., Ill.*, writes: "A few years ago I took cold, which resulted in female trouble, and affected my whole system. About a year ago, I took chills, had one or two a month; they were very weakening. Had pains in my sides, more frequently in left side; gradually grew worse until, finally, I had to take to bed. I had a bad cough and couldn't rest. I commenced taking your medicine, took it about four months, taking seven bottles of Doctor Pierce's Favorite Prescription and five of his "Golden Medical Discovery." My weight has increased, and I feel better and stouter than I have for years."

THE island of Trinidad, about which Great Britain and Brazil are quarreling, is not the island from which asphalt for paving comes, but a poor, rocky excuse for an island off the coast of Brazil not worth fighting for except on account of principle. The asphalt producing West Indies island has long been in the undisputed possession of Great Britain, while the other has until recently not been thought worth even the trouble of planting a flag.

Americans in China.

The cause of "law and order" in China at present needs the active support of the United States. China has received some severe lessons in the past, but seems slow to learn. The course of instruction to be pursued must be sufficiently thorough to impress it upon the minds of the great Chinese nation, and people that an American, man, woman or child, missionary or other person, must be allowed absolute liberty to go anywhere in China in perfect peace and safety, now and forever. The lesson has been long needed and should be at once imparted. In speaking on this subject, the Indianapolis News says "There is not likely to be any necessity for war or a warlike demonstration in order to secure the safety of our people in China, but it may become necessary to put considerable pressure upon the Chinese government, and even to make some show of force The fact that the missionaries are obnoxious to the natives, or that they are present in the empire of their own volition, is not important. They are American citizens, and so long as they behave themselves their rights must be respected. This is not an unreasonable demand. There is no evidence that China regards it as such. The attitude of this government must depend wholly upon the question as to whether the Chinese government is able and willing to furnish that measure of protection which the citizens of a friendly nation residing within the limits of the empire have a right to expect. No effort should be spared to bring it to a realition of its duty in the premises."

Governor Matthews.

Governor Matthews has made a good record as chief executive of the state and those people who think that he will not be a formidable candidate in the next democratic national convention for the presidency will be badly mistaken. He is today one of the most popular democrats in Indiana. It was predicted by some when he assumed the gubernatorial chair that he would not be equal to the emergency, but he has met every complexing situation that faced him, solving and deciding it just about right, and proving that he was fitted in every way for the high office with which the people of Indiana honored him. We have no other way of determining the qualities and the character of a man than by his actions in life, and, judging Governor Matthews by this test, he is made of the kind of stuff that the people admire in a public official. Events have proven, during the great railroad strike of a few years ago, in dealing with the law breakers at Roby and during the session of the last legislature, that he has the courage of his convictions and will do his duty, as he sees it, no matter what pressure may be brought to bear upon him to deviate from the path of right.

In speaking editorially of his candidacy for the presidency the Hancock Democrat, of Greenfield, in this state, says: "As governor of the state he has filled every expectation of his friends, and while his duties, owing to the strike and other difficulties that have arisen, have been perplexing, yet he has met every issue with broad and comprehensive views which mark the sound statesman. Governor Matthews is a growing man in every sense of the word, and since his induction into office has broadened rapidly, and today is well equipped for the high office that it is the desire of the Democrat that he should fill. It seems to us that he is the logical candidate, owing to the fact that Indiana is one of the states that must be carried by the democracy in order to elect the next president."

The New Woman.

The new woman, who isn't any new woman at all, but just the same, nice, sweet old woman who always has been, always will be, the gentle, devoted wife and mother of men, wiser perhaps in the future, more capable of taking care of herself and her children, stronger, healthier and more active as to her body—this modern lady appears to be giving some people a lot of trouble in their minds. The Detroit Tribune thinks, for instance, that it will be well to put Maria Barberi to death because this will make the "new woman less aggressive."

Lady Violet Granville is perhaps almost as hard on what she calls the advanced woman. She points out some of the advanced one's glaring deficiencies as follows:

The advanced woman needs a code of honor. If she is to compete with men in men's work, she must adopt the code which men have found effective and practical. She must learn to hold her tongue, to respect other people's business, other people's secrets and other people's letters. She must not pry or tell white lies or do little mean, underhand actions. This will necessitate a complete change in woman's prejudices, opinions and conduct and may lead finally to the creation of a new woman, but we doubt it.

There is one trouble about great institutions founded by living millionaires. When a professor teaches a theology or politics different from the theology or politics of the millionaire who runs the thing, that professor has to go.

POSTAGE STAMPS.

Their Sale in This City Nets Uncle Sam $34,000 a Year.

Interesting Figures Concerning the Big Amount of Mail Matter Handled by the Fort Wayne Postoffice.

A good thermometer of the business done in any city is the amount of letters and other mail matter handled by the postoffice department, and, taking this as a guide, there has been during the last several months an upward tendency of commercial interests in this city, for, in conversation with Postmaster W. W. Rockhill, THE SENTINEL was informed that the business done at the postoffice was constantly increasing, the last year having witnessed the largest sale of postage stamps of any year in the history of the Fort Wayne postoffice.

"What were the receipts of your office?" THE SENTINEL reporter asked.

"The amount realized from the sale of postage stamps, stamped envelopes, postal cards, etc.," he said, turning to some records on his desk, "was $69,420 96. This is larger than any previous year. Indeed, in this respect the receipts of the office show a marked and continued increase over what it was previous to five years ago, an average annual increase of $15,000. In the way of money orders issued, however, the business has not been as large as the preceding year."

"What amount of mail has your office handled during the last year?"

"It is estimated that there was dispatched 6,705,600 pieces of first class mail; 3,555,240 pieces of second, third and fourth class mail, and 2 148 special delivery letters, making a total of 10,262 988 pieces of mail haddled. This does not include the mail handled by carriers. There were 672 errors made by the dispatching clerks; total pieces correct to each error charged, 15,269 There were issued during the year, 16,719 money orders, amounting to $103,789 64. There were 28 236 money orders paid, amounting to $240,696 82. There were received for dispatch 3,414 registered letters and for delivery 14,195. There were delivered by special messengers 4,410 letters. There were 949 letters advertised. There you have the business of the office for a year in a sort of a nutshell," he concluded.

"But how does Uncle Sam come out of it in the way of making or losing money," the reporter asked. "I mean by that, what were the revenues of the office to the government?"

"Well I'll tell you. As I said before the amount realized by the office from the sale of postage stamps, stamped envelopes, postal cards, etc., was $69,420.96. The expenditures, and I will give you the items in detail as they appear on the reports, were as follows: Salary of carriers, $13,995 16; salary of clerks, $11,115 06; salary of railway postal clerks, $4,236 11; salary of postmaster, $3 200; incidental expenses, $822 05; expense of free delivery, $1,398.01; expense of delivering special letters, $352 80, making a total of $35,119.19 and leaving a net revenue to the government of $34 301.77. This then, in the language of your question, is the amount that Uncle Sam has made out of this office during the last year."

Mr. Rockhill has been postmaster of Fort Wayne since September 1893. The preceeding postmasters since 1834 were: Henry Rudisill, sr., Smallwood Noel, William Stewart, Samuel Stophlet, John G. Maier, Moses Drake, Peter P. Bailey, six months, Jacob J. Kamm, Frederick W. Keil, William Kaough, C. R. Higgins.

Horsford Park is a little village with fifty or sixty inhabitants, located on the railway, seven miles from Crown Point. Night before last the villagers attended a dance, and some unknown person placed arsenic or strychnine in the water used for drinking purposes. A number of persons were alarmingly prostrated, among them Charles Williams, manager of the Horsford Park Land company; Miss Reeig and two young ladies from Chicago. Twenty persons altogether were affected, four of whom cannot live. Mr. Williams says that he has several enemies at the park, and he is confident that an attempt was made upon his life. There have been several grave crimes in that vicinity within the past five years. Two years ago a man eighty-seven years old was chained to a tree, where he starved to death, all on account of a few hundred dollars. His murderers were never arrested. About the same time the remains of five persons were found buried in the muck, indicating that an entire family had been killed.

STARTLING DISCOVERY.

Which May Explain the Disappearance of a Girl.

TWEED, Ont., Aug. 15—On the 16th of August last, Annie Callender, a young English girl, living near Petersburg, disappeared leaving no trace. Today a strange discovery was made. Edward Dowdell, section foreman at Sheffield station, found under the timbers of a bridge a few miles from Tweed a piece of plain board about thirteen inches square on which was written the following statement:

SHEFFIELD, April 26, 1895.

To all the world—a greeting.

This is to certify that I did on the night of the 16th of August, 1894, murder Annie Callander, a young English girl, in the little cemetery at Peterboro, and with a piece of rope and railroad iron, I sank her dead body in the lake. I did it to hide crime. I feel that God will never forgive me for it. I cannot rest day or night. I would like her body taken up and buried. (Signed) "F. R." The case is in the hands of the detectives.

Murderer Confessed.

ST. LOUIS, Aug 15—It will be recollected that early in last May State Senator Peter Morrisey, of this city, was shot and killed in the house of Maud Lewis, said to be the senator's mistress, and that the Lewis woman was indicted for the murder. It now transpires that Maude Lewis has a husband named Albert Andrews, and that he had made a confession to having killed Morrisey. He wants to be arrested and have Maude released, but the authorities have taken no action in the case yet.

A REMARKABLE CURE.

A CASE OF PILES OF EIGHTEEN YEARS STANDING.

Cured by the Pyramid Pile Cure.

There are plenty of pile cures which give relief and sometimes cure a mild case of piles, but there is only one which can be depended upon with certainty to cure obstinate long standing cases, and that is the Pyramid Pile Cure.

Endorsements and testimonials are received daily from men and women whose integrity and reliability are above question and in this connection a letter received from the Rev. Jas. H. Wesbrook, of Bowne, Mich., may be of interest to piles sufferers who have sought in vain for a cure. He says:

I have used the Pyramid Pile Cure and I know that it is all that is claimed for it. I had been troubled with piles more or less for about eighteen years and I had tried other remedies, but the piles grew worse until about ten months ago I used the Pyramid Pile Cure. It gave almost instant relief and I have been free from piles ever since. Rev. Jas. H. Wesbrook.

The remedy seems to act equally well in every form of piles, blind, bleeding, protruding or itching. It stops all pain almost immediately, allays irritation and removes constipation, and anyone who has suffered the annoyance and pain of a rectal trouble will appreciate the excellent results which invariably follow the first application of the Pyramid.

The Pyramid Pile Cure is prepared by the Pyramid Drug Co. of Albion, Mich., and for sale by druggists everywhere.

Two sizes, 50 Cents and $1. Sold by all druggists.

THE TRIAL OF HOLMES.

The Alleged Murderer of the Williams Girls and Others,

Will Take Place at Chicago—Result of a Lengthy Conference Held at Philadelphia.

PHILADELPHIA, Aug 15—It has been practically decided that H. H. Holmes, the alleged murderer of Minnie and Nannie Williams E. F. Pietzel and half a dozen others, will go to Chicago for trial for the murder of the Williams girls. This, it is said, was the outcome of a lengthy conference held in this city today between Lawyer Capps, of Fort Worth, Texas, and District Attorney Graham. After the conference Lawyer Capps said that he had urged the district attorney to allow Holmes to go to Chicago, and Mr. Graham could hardly refuse to grant his request.

LIQUOR DEALERS.

State Meeting Called to Consider the Nicholson Law.

The liquor dealers of the state are not asleep as far as opposition to the Nicholson law is concerned as will be seen by the following letter which has been sent out from Indianapolis by the Indiana State Liquor league to the saloon men throughout the state:

Headquarters of the Indiana State Liquor League.

INDIANAPOLIS, Ind, Aug. 10, 1895.

It must be apparent to you, as it is to every liberal-minded citizen of Indiana, that this state has entered upon an era of fanatical persecution to the retail liquor dealers that, unless it be checked, will make it impossible for other than a whisky druggery or speak-easy to exist; in fact, the Nicholson bill puts a premium on and protects those places at present; nor is the end yet in sight. The Good Citizens' league, of which Mr. Nicholson is president, is organizing all over the state, and in the cities it has even ward and precinct branches, so that you must recognize the importance of this call to the saloonkeepers to be present at the state liquor league convention that meets in the English hotel September 4, and to which you are most respectfully invited.

We would like, if possible, before you come, you would call a meeting of the saloonkeepers in your vicinity and get all their views on this subject, and endeavor to effect a local organization to co-operate with those who are already organized.

If you have an organization in your locality send one delegate for every ten members or fraction thereof. Kindly notify the state secretary of the league by mail and he will send you delegate badges, and our reception committee will recognize you at the depot. This applies to individuals as well as regularly appointed delegates. Our state secretary will gladly give you any other information you may desire on the matter if you will address him.

Trusting that you will aid us by your presence and advice on this occasion, I am, with respect, yours fraternally. JOHN WEILACHER

President The Indiana State Liquor League.

HEBERT'S FAST RUN.

Covered Sixty-One Miles in Fifty-Eight Minutes.

Best Long Distance Run Since the Famous Run of Jack Christie—The Wabash's Big Excursion.

Oliver Hebert, at the throttle of Pennsylvania engine No. 48, made a phenomenal run last evening, when he covered the space between Clark's Junction and Plymouth, a distance of sixty-one miles, in fifty-eight minutes. The train was a special, consisting of General Manager Joseph Wood's private car, with that gentleman aboard, and one coach. It left Chicago over an hour behind No 8, and Mr. Hebert had instructions to overtake the latter and run as the second section of the same, and he carried out the instructions to the letter. No. 8 was overtaken at Warsaw, and from that point to Fort Wayne the special ran on scheduled time. The fifteen miles between Wheeler and Wanetah were traveled in twelve minutes, the best time ever made on that portion of the line. Mr. Hebert's long distance run, sixty-one miles in fifty-eight minutes, comes nearly up to the record established by the late engineer Jack Christie, and beats the run of Engineer Andy Koontz, who made an engine cover sixty-seven miles in sixty-six minutes.

A NARROW ESCAPE.

General Manager Joseph Wood's private car barely escaped serious damage by fire this morning. While it was standing at the depot awaiting the arrival of No. 6, the car inspectors discovered smoke issuing from the roof over the culinary department, and investigation revealed the fact that the woodwork and trimmings in the kitchen were ablaze. The alarm was given and Capt. R. H. Harrison and several others hastened from the shops, carrying chemical extinguishers, and soon put out the fire, but not before the interior of the car was damaged to the extent of $100.

THE PROFIT IN EXCURSIONS.

It will be somewhat of an eye-opener to competing eastern lines to learn that the Wabash Niagara Falls excursion started out of Chicago yesterday afternoon in four sections, containing 1,499 passengers, says the Chicago Herald. In addition, between 250 and 300 passengers who could not get on the excursion trains were accommodated on the regular trains last night. It may be an additional eye-opener for competing lines to learn that the Grand Trunk has already sold over 1,500 tickets on its excursion for the 16th and will probably haul 2,000 passengers. Competing lines which have scoffed at any profit in these excursions will do some very unsatisfactory figuring on the results. In a burst of confidence last night Assistant General Passenger Agent Palmer, of the Wabash, admitted the excursion trains carried 2,000 people. A loathsome competitor counted up his trains, however, and made the count as noted above. With 1,500 passengers, the Wabash took in $12,000. An outside figure for running the trains to and from the falls is $2,000. The excursion may have hurt the regular business of the Wabash $2,000 and all other expenses were under $500. There is thus a clear profit of at least $8,500 in the excursion. With these figures in mind it may seem profitable to other roads to indulge themselves in like plans.

BRIEF MENTION.

Charles T. Strawbridge, purchasing agent for the Bass works, and his sons, John and Willie, went to Bucyrus, Ohio, yesterday to visit Mr Strawbridge's parents.

Machinist Bob Taylor, of the Bass works, is on the sick list.

George Dougherty, fireman on the Nickel Plate, is taking a lay off.

The Pennsylvania and the Grand Rapids pay cars will arrive in the city tomorrow.

The Nickel Plate is stocking up its coal docks here and at other points this week.

Blacksmith Henry Eix has resumed his duties in the Bass shops after a week's illness.

Nelson Howe, Frank Binkley and T. Z. Babcock, of the electric works, are sick and off duty.

W. G. Miller has resigned a position in the Wabash shops to engage at his old trade, that of baking.

After two weeks' illness E. H. W. Dornte has returned to his duties in the Pittsburg plaining mills.

Manager C. M. Crim, of the Standard Wheel works, was called to Bluffton today on business for the company.

Machinist David Judy has recovered from a week's illness and this morning resumed work in the Pittsburg shops.

F. Benecke, Peter Gnaw, Peter Junk, D. Collins and Louis Smith, of the Pittsburg car shop, are sick and off duty.

Henry Lose has returned from Philadelphia, where he spent a month, and is again working in the Pittsburg shops.

There were sixty people in the party which went to Warsaw this morning to attend the celebration of the White institute.

The Big Four now has sixty-four Wagner cars in regular service. Five years ago but sixteen were running on these lines.

Brakeman E. G. Stacey has quit the service of the Nickel Plate and will return to his Ohio home to engage in other business.

Conductor J. M. Wells, of the east Nickel Plate local, is taking a lay off and Conductor C. Charles is running the train today.

F. D. Darlington, superintendent of the Indianapolis division of the Pennsylvania lines, who has been quite ill for some days, is reported better.

Stephen Schellenberger, foreman of the Pittsburg car inspectors, resumed work this morning, after an illness of some days. He is troubled with stomach disease.

Engineer J. G. Carman and Fireman J. Singleton, of the Pittsburg, are off duty on account of sickness. Fireman A. B. Hunter, of the same road, is off duty with an injured hand.

Yesterday the electric works sent the machinery for a 1,500 light plant to Goshen, Ind., and today the machinery for a plant of the same capacity was forwarded to Angola, Ind.

W. F. Waterson, formerly a conductor on the Nickel Plate road, is the guest of Cashier J. E. Sunderland, of the Wabash freight office. Mr. Waterson is now a prosperous druggist in Canton, Ohio.

The Panhandle company has sold to the New York Equipment company a number of old coaches, some of which had been in service twenty-five to thirty years, but are still a very respectable looking coach.

S. E. Strayer, Nickel Plate fireman, has been promoted to a local freight run between Fort Wayne and Leipsic and assigned to engine 22. His place on through freight engine 10 has been filled by Fireman Weisell.

Engineer William C. Kelker, of the Grand Rapids and Indiana road, has gone to Kalamazoo, Mich., to join his wife and children. Thence they will go to Notre Dame to visit a week. Mr. Kelker is enjoying his annual vacation.

Probably the best long distance run of the age was that made by the Knickerbocker express, which left Indianapolis a few days ago three hours and thirty-five minutes late and pulled into New York just thirty minutes late.

Railroad earnings in July, as compiled by the Financial Chronicle, shows a very decided gain over July of 1894. The gross receipts of 122 roads were $37,912,830, an increase over July, 1894, of $5,357,586, or 15.97 per cent. The exhibit is the more gratifying from the fact that this increase has been made when the wheat and cotton crop was practically a failure, and the movement of both articles the lightest in any July in many years.

Railway superintendents are now busy preparing their reports to the interstate commerce commission. All items of importance must be given, including accidents to persons, including passengers, employes and trespassers.

It is stated that A. J. Hitt, assistant general superintendent of the Chicago and Rock Island, is to be appointed general superintendent, to succeed the late Charles Dunlap. Mr. Hitt entered the service of the Rock Island in 1892.

Pittsburg Engineer Frank Whitney this morning received a telegram from his wife, who is in Chicago, stating that her father died there last night. Mr. Whitney left on No. 37 for that city, where he will remain until after the funeral.

The new office, that of general yardmaster at Lafayette, to which George J. Martin was recently appointed, is thought to be merely a stepping stone to something better. Mr. Martin is said to be in high favor with the Wabash officials.

The Logansport Pharos says: "Patrick Cunningham, of Fort Wayne, was in attendance today at the funeral of the late Dennis Monahan. Mr. C. is employed in the Wabash boiler shops at Fort Wayne. He was formerly employed in the Panhandle shops here."

A scarcity of coal cars is complained of on Ohio, Indiana and Illinois roads, and a railway official says it is due to the fact that all box cars, many of which had been used in hauling coal, have been repaired and painted to be used in the grain service this fall and winter.

Charles Long, a passenger engineer having a run on the Nickel Plate east of Bellevue, passed through here yesterday, en route for Colorado, where he expects to spend a thirty days' vacation. Mr. Long formerly ran on the third district of the road and is well known here.

Governor Matthews and his staff will be in attendance at the celebration of the sixth-ninth anniversary of the founding of Peru, which takes place Tuesday, August 27. The street fair will also be in full force at that time. The Wabash announces that it will make a one-fare rate for the round trip on that occasion.

At the urgent request of the patrons of the road, the Wabash announces another cheap excursion to Toledo Sunday, August 25. The fare will be $1.50 for the round trip and, should the weather conditions be favorable, the crowd will simply be immense. The last excursion party numbered 800 and the coming one will double those figures.

Next Wednesday, Aug. 21, the Grand Rapids and Indiana road will sell excursion tickets to Dayton and Cincinnati at the popular price of $2.50 for the round trip. The tickets will be good to return thirty days after date of sale. In former years these excursions were largely patronized, and it is believed that this year will be no exception to the rule.

Engineer Thomas Tulley smashed the speed record, Eagle Lake to Fort Wayne, last night, when he made the run, including four stops, in forty-four minutes. The distance is thirty-seven miles, and allowing for the stops the actual running time was less than thirty-five minutes. The train was No. 38, in charge of Conductor Rohan, and it was late in leaving Eagle Lake on account of the oratorio. It consisted of five coaches, a mail car and a baggage car.

The Indianapolis Journal says: "The Pennsylvania company is certainly doing all in its power to make the Grand Army encampment a success. Yesterday it announced a one-cent flat rate to Louisville over the Louisville division, throwing off the twenty-five cents bridge charge, and on the day of the parade, September 11, will run nine special trains from Indianapolis, each train to stop at only a few stations, and then run as express over the other portion of the road."

The sale of the Pittsburg, Akron and Western to the Brice syndicate has formally been closed, the court issuing an order to turn the deed over to the Brice people, the latter paying $29,000 of disputed claims. C. M. Hackerdorn, general counsel of the Lake Erie and Western, is looking after legal matters in connection with the deal.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials. Address, F. J. SILVER MEN

Indulge in Much and Big Talk

At Their Conference, Held at Washington.

Cleveland and Carlisle Severely Censured.

Resolutions Adopted for Free Coinage of Silver at 16 to 1 Without Waiting for Action of Other Nations.

WASHINGTON, Aug. 15.—The silver democrats continued their conference at the Metropolitan hotel at 9 o'clock today. The committee on resolutions and program being unable to report when the meeting was first called to order, it was suggested that the conference should listen to speeches by those present.

C. F. Cochrane, editor of the St. Joseph, Mo., Gazette, addressed the conference. He said it seemed anamolous that a meeting such as the present should be called, for he knew of no doctrine of the party which was not in consonance with the purposes of this conference. He said that congress was the place to look for the declaration of the party's belief and he declared that gold monometallism would be more disastrous than war, pestilence and famine. It was important to settle first what was republicanism and what democracy; whether such men as ex Senator Thurman and Senator Harris, or Senator Sherman were to be leaders of democratic thought. He declared that the silver agitation would not die out, but would continue until the end for which it had been originated should be attained. Mr. Cochrane also declared against the perpetuation of national banks, whose tyranny, he said, was the greatest that any people would bear. The national banks were opposed to democracy. He was for a declaration for silver without regard to the prospect of success or failure at the polls.

Representative Neill, of Arkansas, announced his entire sympathy with the objects of the present conference. He wanted to see the free coinage of silver provided for at the next session, "regardless of the position of the distinguished citizen at the other end of the avenue," which sentiment was loudly applauded.

He declared the democratic party had no show in the next campaign if there were not a declaration for silver. Ex-Senator Fithian, of Illinois, denied that the free silver sentiment was dying out in that state. He said that all the democratic farmers, and 90 per cent. of the democrats of this state were silver men. He declared that Illinois would send a delegation to the next national convention favorable for free coinage at 16 to 1, independent of other nations. He declared that he had been defeated in the last election, not because of his position on silver, but because he had to bear the odium of an administration which was not democratic. (Applause.)

Representative Livingston, of Georgia, said that the time had come for another declaration of independence. "It is the purpose of the country from which I come," he said, "to prosecute and fight with their coats off and their sleeves rolled up and not to rest until the end. It was England's purpose," he asserted, "to control the United States, and finding herself unable to do so by arms, she had undertaken to do it by controlling our finances. Georgia was determined that the issuance of bonds should not continue." He declared the last bond contract, by which the Rothschilds had been engaged to protect our credit, the most disgraceful thing that had ever taken place in the history of our country. The cry for sound money was a subterfuge as all our people were for sound money. The prospect of an international conference is ridiculed.

Col. Cassey Young, of Memphis, who conducted the correspondence incidental to the preparations for the conference, said he had written 4,000 or 5,000 letters in connection with the movement for the conference. He had corresponded with representative democrats from thirty-eight states, among them Senators Morgan, Berry, Blackburn, Walthall, George Blanchard, Cockrell, Voorhees and Turpie, besides a large number of members of the house, who have sent regrets at not being able to be present. Representative Bryan sent a letter saying there was "no room in this country for two republican parties," and Senator Morgan sent in a telegram saying, "I will follow the old guard wherever it leads."

Colonel Young asserted that four-fifths of the democrats were friendly to free coinage, and he believed a properly organized movement would be irresistible.

Speeches were also made by Senator Call, A. A. Lippscomb, of Washington; J. M. Hill, of Missouri; Representatives Jones, of Virginia, and Lockhart, of North Carolina, and Mr. Bodine, of Missouri. When Mr. Hill arose and some one asked his name, he said: "It is Hill, of Missouri—I thank God it is not Hill, of New York."

Mr. Hill criticised Mr. Cleveland's administration in severe terms, saying the president had betrayed the democratic party by a series of acts of perfidy and treachery which were without parallel, one of the principal of which acts consisted in his ignoring the bimetallic declaration in the last democratic platform. He declared there had been a bargain and sale by which the president of the United States had been turned over to the Jews of Europe and the gamblers of Wall street, the result of which would be that their children and their grandchildren would become hewers of wood and drawers of water. The bond transaction had been enough to consign Grover Cleveland and John G. Carlisle to everlasting political oblivion and shame. They would 'go down to the ages hand in hand amid the execrations of mankind as two of the most stupendous frauds of the century." He asked the reporters present to make especial note of the sentence. He denounced Senators Brice and Gorman as disloyal to the democratic party.

Ex-Representative Turner, of New York, was introduced as a new convert. He said he was a silver man and meant to remain so. He declared that an intelligent effort in New York would do wonders and predicted that the nomination of free silver candidates would not weaken the ticket in the east.

Mr. Lockhart advocated a campaign of appeal to reason and depreciated a resort to abuse and denunciation. He controverted the idea that silver coinage was a controlling tenent in the populist party.

It was almost 12 o'clock when the committee on resolutions filed into the conference room and Senator Daniel was recognized to make the report of the committee's proceedings. This was divided into two sections, one consisted of an address to the democrats and the other a plan of organization. He said the address was the same as that adopted by the democrats of Texas, Missouri and Mississippi. The address was read by Governor Stone, of Missouri, and is as follows:

The address issued disclaims speaking with party authority, the assemblage being a voluntary one, but strongly represents the opinion of the conference that the party should declare for free coinage of silver. The address concludes as follows: Duty to the people requires that the party of the people continue the battle for bimetallism until its efforts are crowned with success; therefore, be it

Resolved, That the democratic party in national convention assembled should demand the free and unlimited coinage of silver and gold into primary or redemption money at the ratio of 16 to 1, without waiting for the action or approval of any other nation.

Resolved, Second, That it should declare its irrevocable opposition to the substitution for money of a panic-breeding, corporation credit currency, based on a single metal, the supply of which is so limited that it can be cornered at any time by a few banking institutions in Europe and America.

Resolved, Third—That it should declare its opposition to the policy and practice of surrendering to the holders of the obligations of the United States the option reserved by the law to the government of redeeming such obligations in either silver coin or gold coin.

Resolved, Fourth, That it should declare its opposition to the issuing of interest bearing bonds of the United States in the time of peace, and especially to placing the treasury of the government under control of any syndicate of bankers and the issuance of bonds to be sold by them at enormous profit for the purpose of supplying the federal treasury with gold to maintain the policy of gold monometallism.

With a view to securing the adherence to and readoption of the democratic financial policy above set forth by the democratic national convention to be assembled in 1896 and of the nomination of a candidate for the presidency well known to be in hearty sympathy therewith, we hereby pledge our mutual co operation and urgently recommend to our democratic brethern in all the states to at once begin and vigorously and systematically prosecute the work of a thorough organization, and to this end the adoption of the plan of organization herewith submitted is recommended.

The part of the report dealing with the plan of organization above referred to was read by ex-Senator Jarvis, of North Carolina, and is as follows:

Believing that a large majority of the democratic voters of the United States are in harmony with the sentiments expressed in the foregoing address, and knowing that a full and free expression of their views can only be ascertained and made effective through proper organized efforts, we recommend the following as a plan for such organization:

First. There shall be a national committee of democrats who are in favor of both silver and gold as the money of the constitution, which shall be composed of one democrat from each state and territory and the District of Columbia and the executive committee herein after provided for.

Second. That until otherwise ordered by the national committee Senators Isham G. Harris, of Tennessee; James R. Jones, of Arkansas, and David Turpie, of Indiana, and Hons. W. J. Stone, of Missouri; W. H. Hinrichsen, of Illinois, and Cassey Young, of Tennessee, be, and they are hereby constituted the executive committee shall have full power, authority, and it shall be their duty, at as early a day as possible, to appoint the members of the national committee as provided for and to fill vacancies in the same.

Third. That said national committee shall have full control and direction of the patriotic effort of the bimetallic democracy of the nation to secure in the next national democratic convention the maintenance of the time honored principles and policies of the democratic party, and when the national convention committee herein provided for is not in session, the executive committee shall have all the authority and discharge of all the duties hereby conferred upon the national committee.

Fourth. It shall be the duty of the members of the national committee from each state immediately after his appointment to take such steps as he may deem best to organize the bimetallic forces of his state, and it is earnestly recommended that in each county and election precinct of each state, bimetallic democratic clubs be organized, and for this purpose he may appoint such committees and sub committees and canvassers as he may deem best.

Fifth That fully realizing the fact that this nor any other plan of organizing can be successful without a hearty co operation of the voters themselves, we urge upon every voter in every state in the union who is in sympathy with this movement and he wishes to restore permanent prosperity to his home and country, to lend his aid and influence to perfecting this organization, and that each of them shall enroll himself in some club.

The report of the committee was adopted without opposition, and after listening to a few brief speeches the conference adjourned sine die. Senator Daniel made the last speech of the meeting He said: "I will only say that I am a democrat, and being a democrat, I could not help being for the solid, honest and ancient gold and silver money of the democratic party. The party of the people must stand for the money of the people, and whom God hath joined together Plutocracy shall not put asunder."

CLEVELAND, Ohio, Aug. 15.—Louis Gimm, the crack long distance bicycle rider of this city, who started at noon yesterday at the Cleveland Driving park to beat the twenty-four-hour record, ended his task at 12 o'clock today and smashed the American record. Gimm made 453 miles and 1,700 yards and rode the last ten miles in better than a 2:30 clip, running away from his pacemakers. Although he has taken very little rest, he seemed as fresh when he had finished as when he started. The American long distance championship was previously held by W. B. THE QUEEN'S SPEECH

Is Read in the English House of Parliament.

Her Views on the Armenian Question and the Atrocities Which Have Been Perpetrated in China.

LONDON, Aug 15.—After the house of commons reassembled today, the members were summoned to the house of lords with the usual formalities and the queen's speech was read by the lord chancellor, Baron Salsbury. It was as follows:

My Lord and Gentlemen

The communications which I receive from foreign powers assure me of the continuance of their good will. I am happy to say that no international complication has arisin in any quarters calculated to endanger the peace of Europe. The war between China and Japan, which was in progress at the opening of the last session, has been brought to a conclusion by a peace which I trust will endure. I observed strict neutrality during the war and have taken no action in respect thereto except such as appeared to me likely to be favorable to a termination of hostilities. I deeply regret to say that the most atrocitious outrages upon a body of English missionaries are reported from the province of Fu Kien, in China. In reply to earnest representations addressed to the Chinese government by my direction, measures which I trust will prove effective, are being taken for the punishment of the murderers and all persons in any degree responsible for these crimes.

"The international troubles which have broken out in the Armenian district of Asiatic Turkey have been attended with horrors which have moved to indignation the Christian nations of Europe generally and my people especially. My ambassador and the ambassadors of the emperor of Russia and the president of the French republic, acting together, have suggested to the government of the sultan reforms which, in their opinion, are necessary to prevent a recurrence of constant disorder. These proposals are now being considered by the sultan and I am anxiously awaiting his decision."

The speech concludes with a reference to the incorporation of Beechaunaland into Cape Colony. The speech to the commons merely says that the estimates for the service of the year which were not voted at the last session will be laid before them.

The second portion of the speech says: "My Lords and Gentlemen—At this season of the year in will probably be found more convenient to defer to another session the consideration of any important legislative measures except those which are necessary to provide for the administrative charges of the year."

ALLEGED FORGER ARRESTED.

He Leads the Officers a Lively Chase Before Capture.

LEBANON, Ind., Aug. 15.—After a hunt of several days, James Sample, near Elizaville, has been captured and placed in jail to await trial for forgery. Last week he presented to Cashier Lane, of the First National bank, a note for $75, which he desired to sell. The man was unknown to the bank officials, but as the note was signed by Robert Stephenson, James Chalk and James King, prominent farmers of good, financial standing, it was purchased, and the young man promptly left town. The bank officials made inquiry, and soon learned that the note was a forgery. The police were notified, and began searching for Sample. Later it was discovered that he had purchased a buggy of Butler & Jett, and given two notes of $40 and $45 each, indorsed by James and Isaac Chalk, which were also forged. The officers followed Sample to Frankfort, and other surrounding towns, but he eluded them until Monday evening, when Policeman Caldwell captured him at his home, near Elizaville, but Sample escaped after being in custody but a few moments. He was afterward arrested at Kirklin, and he has made several attempts to escape since. When brought before Mayor Garrett he entered a plea of guilty, and was bound over to the circuit court. Sample has been in trouble before.

Will President Diaz Allow the Bruisers to Fight.

EL PASO, Texas, Aug. 15.—Today M. T. McLean, a prominent sporting man of Chicago, who came here a few days ago to see what arrangements could be made to have the Corbett-Fitzsimmons fight come off in Juarez, Mexico, in case it was stopped at Dallas, Texas, received a telegram from Joe Hampson, the big railroad contractor of Mexico, stating that President Diaz would under no consideration allow the fight to take place on Mexican soil. Billy Smith, a pugilist of this city, has been sent down to the City of Mexico to give a boxing contest with Jimmy Carroll before President Diaz's cabinet to show them that the sport is not brutal.

Emmett Divers Taken From the Sheriff and Strung Up by a Mob.

ST. LOUIS, Mo., Aug. 15.—Emmett Divers, the negro who outraged and then killed Mrs. Cain near Fulton, Mo., a couple of weeks ago, and who was brought here for safe keeping, was taken from the sheriff at Fulton about 1 o'clock this morning by a mob and hanged to a railroad bridge. No particulars yet received. Divers was taken from here yesterday afternoon by Deputy Sheriff Buchanan, of Calloway county, and arrived at Fulton some time after midnight.

Sheriff Buchanan, left the train with his prisoner, some distance from Fulton and was proceeding with him in a carriage when he was intercepted by a mob of more than a hundred men, who forcibly took the negro and hanged him.

FIRE AT FINDLAY.

A Refinery Tank Explodes and Starts the Flames.

TOLEDO, Ohio, Aug. 15.—An explosion and resulting fire, entirely consumed the plant of the Peerless refinery, Findlay, with $60,000 loss, half insured. A benzine tank first exploded, cause unknown, and in an instant the building was wrapped in seething flames. Two stillmen, Wm. Adams and Wm. Bemis, were probably fatally injured. Ten stills caught next and one after the other exploded, sending flaming oil over the surrounding buildings and ground. Next ten tanks of crude oil, containing 12,000 gallons caught fire, sending up columes of flame 200 feet into the air. A mammoth tank of 30,000 barrels was fired into with a cannon, letting the oil run out, which caught fire. The oil is still burning and the smoke obscures the heavens for miles

THE CASE CONTINUED.

Miss Lowry Asks Further Time to Procure Witnesses.

A Number of Firemen Promoted From Class C to Class B—A New Engine House.

The board of public safety held an important meeting last evening. Chief Hilbrecht was asked to purchase some new hose for the department He reported, also, that Captain Schroeder, of engine house No. 1, had preferred charges against Fireman Ed Moody for absenting himself from the engine house without permission Both men were cited to appear and explain matters more fully

Estimates for the police and fire departments were considered and several recommended improvements talked over. The most important of these improvements will be a new engine house in South Wayne. The board will ask the council for money to put up the building, buy equipment and hire the necessary men to run it. The board is informed that the city owns a lot in South Wayne and Mr. Bash of the board of public safety, said if the lot was found to be properly located the new engine house would be built upon it, but if not, other property would be purchased for the purpose.

Chief Hilbrecht asked for two additional men for the fire department The new telephone service will require one new man and he has a place for the other. Two or three more policemen are also wanted and the board will likely ask the council to vote the necessary funds for their employment. One of the new men, if any are granted, will be placed in Nebraska and one east of Hanna street, while places will also probably be made for others

The charges preferred against Police Officer Bowers by Miss Lowry were to have received further investigation by the board last night. Miss Lowry appeared, however, and asked that the matter be continued a few days because, she said, she was unable to secure the presence of some of her witnesses last night.

Miss Lowry, at the last week's meeting, testified that she had been informed that Mrs. Egg had callers at her home and that it was not just the place for a young lady to room.

Mr. Bash last night asked Miss Lowry if she remembered having given this testimony.

"I do," replied the young lady.

"But you still remained there?"

"Yes, sir. I was warned about a week previous to the trouble."

"Who warned you?" Mr. Bash asked

"Do you want the name of the person who warned me?' Miss Lowry inquired.

"Yes, give us the name."

"It was Mrs. Lutz, wife of Phillip Lutz, who has a restaurant on Calhoun street."

Miss Lowry has stated on several occasions that she left the home of Mrs Egg just as soon as possible after she had been warned by Mrs. Lutz.

The board concluded its meeting by promoting nine firemen from class C to class B. This gives the men an increase in pay from $50 to $55 per month The firemen who receive this advance are Edward E. Bissell, Meinhart Swart, Benjamin R Stanberry, Gustave Hilgeman, Lewis J. Niemann, Frank J. Porison, William Hensell, M Baillie and Frank Albrecht.

The executive board of the Photographer's association of Indiana is in session in this city today. They are Messrs. Heimberger, Larrimore, Shores and Halloway. The object of the meeting is to arrange for the next meeting of the association.

A marriage notice in yesterday's paper, giving the name of Miss Anna Racine as one of the contracting parties, should have read as follows: "At the home of Mrs. William Kimo occurred the marriage of Mr. Frank Patterson and Miss Anna Renier."

Messrs. Henry C. Graffe, Harry Graffe, Andy Glutting, Chas. A Guild, Harry Harrison, Frank Iten and Al. Friend left yesterday for Cedar Lake, where they will spend a week.

JUMPED FROM A TRAIN.

Wild and Hazardous Leap of an Unknown Man.

Springs From Passenger Train No. 6, on the Nickele Plate—Supposed to be Insane.

Yesterday afternoon as Nickel Plate passenger train No. 6, due here at 6.20, was flying along at the rate of forty miles per hour, about thirty miles from Chicago, the occupants of one of the coaches were surprised to see a passenger suddenly stand up, kick out a pane of glass and spring head first from the window. It was all done so quickly that no one had a chance to grab the desperate man Several passengers sprang up and grabbed at the bell cord, but there was some delay in stopping the train. When this was finally accomplished the passenger backed up to the point where the man had jumped off but no signs of the individual could be found. By the track, where the earth was moist, could plainly be seen the spot where the fellow had alighted, but he had disappeared as completely as though the earth had opened and swallowed him

A search was made in the tall grass and bushes, and then the task was given up, as it was plainly evident the man had hidden somewhere in the marshes.

The curious part of the occurrence is the fact that the man was not killed outright. Who he is no one knows. Conductor Urbans brought the man's baggage to Fort Wayne and this morning Officer Dora Hardendorf examined it at the Nickel Plate baggage room. It contained a valice and a blanket in which was rolled a lady's jacket In the valice was some underclothing eight rolls of bandages, some strips of linen, a bunch of absorbing cotton, some salve and liniment. Aside from this there was a lady's bracelet about which was wrapped a bill head from a San Jose, Cal., firm.

It is supposed the man is an invalid en route east from California and suddenly became insane. Although the railway officials have made diligent inquiry, no traces of the missing man have yet been found.

This morning Tom Wilkinson went north to look for the man, who was seen sitting on the Michigan Southern tracks near Hessville.

WITH A HAT PIN.

A Desperate Woman Makes an Attack On an Officer.

Sheriff Clausmeier Forced to Fight Against a Novel Weapon—Two Tough Characters.

Last night about 10 o'clock a telephone call was received from the western suburbs, stating that the sheriff and his deputies were wanted at the Getz brickyard, west of town, where two desperate characters, armed with revolvers, were demanding admittance to the Getz home. The sheriff, accompanied by Deputies Harrod and Wiley, went out in haste. Arriving at the home of Mr. Getz, they were informed that the man and woman had been induced to go to the barn and sleep and could be found there. When the officers located the couple they at once showed fight. Mr. Clausmeier started to place the woman under arrest, but she sprang upon him with the ferocity of a tiger and using a hat pin endeavored to stab the officer in the face While engaged in quieting the excited woman her husband suddenly sprang onto Clausmeier from behind and for a time there was a merry war. The deputies rushed to the sheriff's assistance and the two prisoners were soon subdued. They were brought to the station house and locked up. This morning before Mayor Oakley the couple said their names were William and Blanch Davis and that their home was in Indianapolis. They claimed to be hunting work. Yesterday the couple was seen on the streets and both were intoxicated. No revolver was found on their persons, although they had threatened to shoot Mr. Getz The mayor sent the couple to jail for fifteen days each.

A SAD CASE.

Mrs. S. E Rogers, of Grand Rapids, was in the city last evening, en route home from Carlisle, Ind, with her son, Wilkie, who is insane. The poor woman had run out of funds and the night police took care of her son and saw that both were provided with passes for the north. Mrs. Rogers and her son left for the north at 2 o'clock this morning

Mr. Chevillot is an early riser and discovered the straw stack on fire. He hastilly summoned his neighbors and after considerable difficulty succeeded in putting out the fire. The barn had a narrow escape.

THE island of Trinidad, about which Great Britain and Brazil are quarreling, is not the island from which asphalt for paving comes, but a poor, rocky excuse for an island off the coast of Brazil not worth fighting for except on account of principle. The asphalt producing West Indies island has long been in the undisputed possession of Great Britain, while the other has until recently not been thought worth even the trouble of planting a flag

Americans in China.

The cause of 'law and order' in China at present needs the active support of the United States. China has received some severe lessons in the past, but seems slow to learn. The course of instruction to be pursued must be sufficiently thorough to impress it upon the minds of the great Chinese nation, and people that an American, man, woman or child, missionary or other person, must be allowed absolute liberty to go anywhere in China in perfect peace and safety, now and forever. The lesson has been long needed and should be at once imparted. In speaking on this subject, the Indianapolis News says "There is not likely to be any necessity for war or a warlike demonstration in order to secure the safety of our people in China, but it may become necessary to put considerable pressure upon the Chinese government, and even to make some show of force. The fact that the missionaries are obnoxious to the natives, or that they are present in the empire of their own volition, is not important. They are American citizens, and so long as they behave themselves their rights must be respected. This is not an unreasonable demand. There is no evidence that China regards it as such. The attitude of this government must depend wholly upon the question as to whether the Chinese government is able and willing to furnish that measure of protection which the citizens of a friendly nation residing within the limits of the empire have a right to expect. No effort should be spared to bring it to a realization of its duty in the premises."

Governor Matthews.

Governor Matthews has made a good record as chief executive of the state and those people who think that he will not be a formidable candidate in the next democratic national convention for the presidency will be badly mistaken. He is today one of the most popular democrats in Indiana. It was predicted by some when he assumed the gubernatorial chair that he would not be equal to the emergency, but he has met every complexing situation that faced him, solving and deciding it just about right, and proving that he was fitted in every way for the high office with which the people of Indiana honored him. We have no other way of determining the qualities and the character of a man than by his actions in life, and, judging Governor Matthews by this test, he is made of the kind of stuff that the people admire in a public official. Events have proven, during the great railroad strike of a few years ago, in dealing with the law breakers at Roby and during the session of the last legislature, that he has the courage of his convictions and will do his duty, as he sees it, no matter what pressure may be brought to bear upon him to deviate from the path of right.

In speaking editorially of his candidacy for the presidency the Hancock Democrat, of Greenfield, in this state, says: "As governor of the state he has filled every expectation of his friends, and while his duties, owing to the strike and other difficulties that have arisen, have been perplexing, yet he has met every issue with broad and comprehensive views which mark the sound statesman. Governor Matthews is a growing man in every sense of the word, and since his induction into office has broadened rapidly, and today is well equipped for the high office that it is the desire of the Democrat that he should fill. It seems to us that he is the logical candidate, owing to the fact that Indiana is one of the states that must be carried by the democracy in order to elect the next president."

The New Woman.

The new woman, who isn't any new woman at all, but just the same, nice, sweet old woman who always has been, always will be, the gentle, devoted wife and mother of men, wiser perhaps in the future, more capable of taking care of herself and her children, stronger, healthier and more active as to her body—this modern lady appears to be giving some people a lot of trouble in their minds. The Detroit Tribune thinks, for instance, that it will be well to put Maria Barberi to death because this will make the "new woman less aggressive."

Lady Violet Granville is perhaps almost as hard on what she calls the advanced woman. She points out some of the advanced one's glaring deficiencies as follows

The advanced woman needs a code of honor. If she is to compete with men in men's work, she must adopt the code which men have found effective and practical. She must learn to hold her tongue, to respect other people's business, other people's secrets and other people's letters. She must not pry or tell white lies or do little mean, underhand actions. This will necessitate a complete change in woman's prejudices, opinions and conduct and may lead finally to the creation of a new woman, but we doubt it.

There is one trouble about great institutions founded by living millionaires. When a professor teaches a theology or politics different from the theology or politics of the millionaire who runs the thing, that professor has to go.

POSTAGE STAMPS.

Their Sale in This City Nets Uncle Sam $34,000 a Year.

Interesting Figures Concerning the Big Amount of Mail Matter Handled by the Fort Wayne Postoffice.

A good thermometer of the business done in any city is the amount of letters and other mail matter handled by the postoffice department, and, taking this as a guide, there has been during the last several months an upward tendency of commercial interests in this city, for, in conversation with Postmaster W W Rockhill, THE SENTINEL was informed that the business done at the postoffice was constantly increasing, the last year having witnessed the largest sale of postage stamps of any year in the history of the Fort Wayne postoffice

"What were the receipts of your office?" THE SENTINEL reporter asked

"The amount realized from the sale of postage stamps stamped envelopes, postal cards, etc," he said, turning to some records on his desk, "was $69,120 96. This is larger than any previous year. Indeed, in this respect the receipts of the office show a marked and continued increase over what it was previous to five years ago, an average annual increase of $15,000. In the way of money orders issued, however, the business has not been as large as the preceding year."

"What amount of mail has your office handled during the last year?"

"It is estimated that there was dispatched 6 705 600 pieces of first class mail, 3,555 240 pieces of second, third and fourth class mail, and 2 148 special delivery letters making a total of 10,262 988 pieces of mail handled. This does not include the mail handled by carriers. There were 672 errors made by the dispatching clerks, total pieces correct to each error charged, 15 269. There were issued during the year, 16-719 money orders, amounting to $103,789 64. There were 28 236 money orders paid, amounting to $240,696 82. There were received for dispatch 3,414 registered letters and for delivery 14,195. There were delivered by special messengers 4 410 letters. There were 949 letters advertised. There you have the business of the office for a year in a sort of a nutshell," he concluded.

"But how does Uncle Sam come out of it in the way of making or losing money," the reporter asked. "I mean by that, what were the revenues of the office to the government?"

"Well I'll tell you. As I said before the amount realized by the office from the sale of postage stamps, stamped envelopes, postal cards, etc, was $69,420 96. The expenditures, and I will give you the items in detail as they appear on the reports, were as follows: Salary of carriers, $13,995 16, salary of clerks, $11,115 06, salary of railway postal clerks, $4,236 11, salary of postmaster, $3 200, incidental expenses, $822 05, expense of free delivery, $1 398 01, expense of delivering special letters, $352 80, making a total of $35 119 19 and leaving a net revenue to the government of $34 301 77. This then, in the language of your question, is the amount that Uncle Sam has made out of this office during the last year."

Mr. Rockhill has been postmaster of Fort Wayne since September 1893. The preceeding postmasters since 1834 were. Henry Rudisill, sr., Smallwood Noel, William Stewart, Samuel Stophlet, John G. Maier, Moses Drake, Peter P Bailey, six months, Jacob J. Kamm, Frederick W. Keil, William Kaough, C. R. Higgins.

BIG RACES.

Match Trot at Buffalo Between Azote and Fantasy.

Azote Was the Winner—Good Racing at Indianapolis, Springfield, Galesburg, Ill., and Youngstown, O.

BUFFALO, Aug 14—The match between Azote and Fantasy was the drawing card at yesterday's grand circuit races

El Rami took three straight heats in the 2 28 trot, with Valley Queen finishing second each time

Geers did some masterly driving in the 2 20 trot, winning the $5 000 purse for the Village Farm with the black stallion Athanio, who was the favorite at even money. Miss McGregor had the pole in the first heat and carried the bunch to the half mile in 1 7½. Here Geers brought Athanio to the front, and at the stretch he was in line with Lady Wilton and Miss McGregor. The race to the wire was exciting

Friday Corbett will box four rounds with his sparring partner on the track, and Saturday Fitzsimmons will box and punch the bag. Azote will be taking to Chicago to race Beuzetta if arrangements can be made. Summaries

INDIANAPOLIS, Ind., Aug. 15—Three thousand people attended the races yesterday. The track was in excellent condition and everything was favorable to fast time. The only reason faster time was not made was because the winners were not pushed harder.

Great interest is being taken in the 2.09 pace which comes off tomorrow between Frank Agan and Fidol. Coleridge will not start. Again's new owner said yesterday he would go three heats better than 205, and a sensational race is expected. It would not cause much surprise to see the race record of last year eclipsed. The Giles woman was removed to the City hospital in an unconscious condition. Patrolman Muth is badly hurt

Horsford Park is a little village with fifty or sixty inhabitants, located on the railway, seven miles from Crown Point. Night before last the villagers attended a dance, and some unknown person placed arsenic or strychnine in the water used for drinking purposes. A number of persons were alarmingly prostrated, among them Charles Williams, manager of the Horsford Park Land company; Miss Resig and two young ladies from Chicago. Twenty persons altogether were affected, four of whom cannot live. Mr. Williams says that he has several enemies at the park, and he is confident that an attempt was made upon his life. There have been several grave crimes in that vicinity within the past five years. Two years ago a man eighty seven years old was chained to a tree, where he starved to death, all on account of a few hundred dollars. His murderers were never arrested. About the same time the remains of five persons were found buried in the muck, indicating that an entire family had been killed.

A REMARKABLE CURE.

A CASE OF PILES OF EIGHTEEN YEARS STANDING

Cured by the Pyramid Pile Cure.

There are plenty of pile cures which give relief and sometimes cure a mild case of piles, but there is only one which can be depended upon with certainty to cure obstinate long standing cases, and that is the Pyramid Pile Cure

Endorsements and testimonials are received daily from men and women whose integrity and reliability are above question and in this connection a letter received from the Rev Jas H Wesbrook, of Bowne, Mich, may be of interest to piles sufferers who have sought in vain for a cure. He says:

I have used the Pyramid Pile Cure and I know that it is all that is claimed for it. I had been troubled with piles more or less for about eighteen years and I had tried other remedies, but the piles grew worse until about ten months ago I used the Pyramid Pile Cure. It gave almost instant relief and I have been free from piles ever since. Rev. Jas. H Wesbrook.

The remedy seems to act equally well in every form of piles, blind, bleeding, protruding or itching. It stops all pain almost immediately, allays irritation and removes constipation, and anyone who has suffered the annoyance and pain of a rectal trouble will appreciate the excellent results which invariably follow the first application of the Pyramid.

The Pyramid Pile Cure is prepared by the Pyramid Drug Co of Albion, Mich, and for sale by druggists everywhere

Two sizes, 50 Cents and $1. Sold by all druggists.

STARTLING DISCOVERY.

Which May Explain the Disappearance of a Girl.

TWEED, Ont., Aug. 15—On the 16th of August last, Annie Callender, a young English girl, living near Petersburg, disappeared leaving no trace. Today a strange discovery was made. Edward Dowdell, section foreman at Sheffield station, found under the timbers of a bridge a few miles from Tweed a piece of plain board about thirteen inches square on which was written the following statement,

SHEFFIELD, April 26, 1895.

To all the world—a greeting.

This is to certify that I did on the night of the 16th of August, 1894, murder Annie Callander, a young English girl, in the little cemetery at Peterboro, and with a piece of rope and railroad iron, I sank her dead body in the lake. I did it to hide crime. I feel that God will never forgive me for it. I cannot rest day or night. I would like her body taken up and buried. (Signed) "F. R." The case is in the hands of the detectives

Murderer Confessed.

ST. LOUIS, Aug 15—It will be recollected that early in last May State Senator Peter Morrisey, of this city, was shot and killed in the house of Maud Lewis, said to be the senator's mistress, and that the Lewis woman was indicted for the murder. It now transpires that Maude Lewis has a husband named Albert Andrews, and that he had made a confession to having killed Morrisey. He wants to be arrested and have Maude released, but the authorities have taken no action in the case yet.

THE TRIAL OF HOLMES,

The Alleged Murderer of the Williams Girls and Others,

Will Take Place at Chicago—Result of a Lengthy Conference Held at Philadelphia.

PHILADELPHIA, Aug 15—It has been practically decided that H H Holmes, the alleged murderer of Minnie and Nannie Williams, B F Pietzel and half a dozen others, will go to Chicago for trial for the murder of the Williams girls. This, it is said, was the outcome of a lengthy conference held in this city today between Lawyer Capps, of Fort Worth, Texas, and District Attorney Graham. After the conference Lawyer Capps said that he had urged the district attorney to allow Holmes to go to Chicago, and Mr. Graham could hardly refuse to grant his request

LIQUOR DEALERS.

State Meeting Called to Consider the Nicholson Law.

The liquor dealers of the state are not asleep as far as opposition to the Nicholson law is concerned as will be seen by the following letter which has been sent out from Indianapolis by the Indiana State Liquor league to the saloon men throughout the state

Headquarters of the Indiana State Liquor League

INDIANAPOLIS, Ind, Aug 10, 1895

It must be apparent to you, as it is to every liberal-minded citizen of Indiana, that this state has entered upon an era of fanatical persecution to the retail liquor dealers that, unless it be checked, will make it impossible for other than a whisky druggery or speak easy to exist, in fact, the Nicholson bill puts a premium on and protects those places at present, nor is the end yet in sight. The Good Citizens' league, of which Mr Nicholson is president, is organizing all over the state, and in the cities it has even ward and precinct branches, so that you must recognize the importance of this call to the saloonkeepers to be present at the state liquor league convention that meets in the English hotel September 4, and to which you are most respectfully invited.

We would like, if possible, before you come, you would call a meeting of the saloonkeepers in your vicinity and get all their views on this subject, and endeavor to effect a local organization to co-operate with those who are already organized

If you have an organization in your locality send one delegate for every ten members or fraction thereof. Kindly notify the state secretary of the league by mail and he will send you delegate badges, and our reception committee will recognize you at the depot. This applies to individuals as well as regularly appointed delegates. Our state secretary will gladly give you any other information you may desire on the matter if you will address him.

Trusting that you will aid us by your presence and advice on this occasion, I am, with respect, yours fraternally.

HEBERT'S FAST RUN.

Covered Sixty-One Miles in Fifty-Eight Minutes.

Best Long Distance Run Since the Famous Run of Jack Christie—The Wabash's Big Excursion.

Oliver Hebert, at the throttle of Pennsylvania engine No. 48, made a phenomenal run last evening, when he covered the space between Clark's Junction and Plymouth, a distance of sixty-one miles, in fifty-eight minutes. The train was a special, consisting of General Manager Joseph Wood's private car, with that gentleman aboard, and one coach. It left Chicago over an hour behind No 8, and Mr. Hebert had instructions to overtake the latter and run as the second section of the same, and he carried out the instructions to the letter. No. 8 was overtaken at Warsaw, and from that point to Fort Wayne the special ran on scheduled time. The fifteen miles between Wheeler and Wanetah were traveled in twelve minutes, the best time ever made on that portion of the line. Mr. Hebert's long distance run, sixty-one miles in fifty-eight minutes, comes nearly up to the record established by the late engineer Jack Christie, and beats the run of Engineer Andy Koontz, who made an engine cover sixty-seven miles in sixty-six minutes.

A NARROW ESCAPE.

General Manager Joseph Wood's private car barely escaped serious damage by fire this morning. While it was standing at the depot awaiting the arrival of No. 6, the car inspectors discovered smoke issuing from the roof over the culinary department, and investigation revealed the fact that the woodwork and trimmings in the kitchen were ablaze. The alarm was given and Capt. R. H. Harrison and several others hastened from the shops, carrying chemical extinguishers, and soon put out the fire, but not before the interior of the car was damaged to the extent of $100.

THE PROFIT IN EXCURSIONS.

It will be somewhat of an eye-opener to competing eastern lines to learn that the Wabash Niagara Falls excursion started out of Chicago yesterday afternoon in four sections, containing 1,499 passengers, says the Chicago Herald. In addition, between 250 and 300 passengers who could not get on the excursion trains were accommodated on the regular trains last night. It may be an additional eye-opener for competing lines to learn that the Grand Trunk has already sold over 1,500 tickets on its excursion for the 16th and will probably haul 2,000 passengers. Competing lines which have scoffed at any profit in these excursions will do some very unsatisfactory figuring on the results. In a burst of confidence last night Assistant General Passenger Agent Palmer, of the Wabash, admitted the excursion trains carried 2,000 people. A loathsome competitor counted up his trains, however, and made the count as noted above. With 1,800 passengers, the Wabash took in $12,000. An outside figure for running the trains to and from the falls is $2,000. The excursion may have hurt the regular business of the Wabash $2,000 and all other expenses were under $500. There is thus a clear profit of at least $8,500 in the excursion. With these figures in mind it may seem profitable to other roads to indulge themselves in like plans.

BRIEF MENTION.

Charles T. Strawbridge, purchasing agent for the Bass works, and his sons, John and Willie, went to Bucyrus, Ohio, yesterday to visit Mr Strawbridge's parents.

Machinist Bob Taylor, of the Bass works, is on the sick list.

George Dougherty, fireman on the Nickel Plate, is taking a lay off.

The Pennsylvania and the Grand Rapids pay cars will arrive in the city tomorrow.

The Nickel Plate is stocking up its coal docks here and at other points this week.

Blacksmith Henry Eix has resumed his duties in the Bass shops after a week's illness.

Nelson Howe, Frank Binkley and T. Z. Babcock, of the electric works, are sick and off duty.

W. G. Miller has resigned a position in the Wabash shops to engage at his old trade, that of baking.

After two weeks' illness E. H. W. Dornte has returned to his duties in the Pittsburg plaining mills.

Manager C. M. Crim, of the Standard Wheel works, was called to Bluffton today on business for the company.

Machinist David Judy has recovered from a week's illness and this morning resumed work in the Pittsburg shops.

F. Benecke, Peter Gnaw, Peter Junk, D. Collins and Louis Smith, of the Pittsburg car shop, are sick and off duty.

Henry Lose has returned from Philadelphia, where he spent a month, and is again working in the Pittsburg shops.

There were sixty people in the party which went to Warsaw this morning to attend the celebration of the White institute.

The Big Four now has sixty-four Wagner cars in regular service. Five years ago but sixteen were running on these lines.

Brakeman E. G. Stacey has quit the service of the Nickel Plate and will return to his Ohio home to engage in other business.

Conductor J. M. Wells, of the east Nickel Plate local, is taking a lay off and Conductor C. Charles is running the train today.

F. D. Darlington, superintendent of the Indianapolis division of the Pennsylvania lines, who has been quite ill for some days, is reported better.

Stephen Schellenberger, foreman of the Pittsburg car inspectors, resumed work this morning, after an illness of some days. He is troubled with stomach disease.

Engineer J. G. Carman and Firemen J. Singleton, of the Pittsburg, are off duty on account of sickness. Fireman A. B. Hunter, of the same road, is off duty with an injured hand.

Yesterday the electric works sent the machinery for a 1,500 light plant to Goshen, Ind., and today the machinery for a plant of the same capacity was forwarded to Angola, Ind.

W. F. Waterson, formerly a conductor on the Nickel Plate road, is the guest of Cashier J. E. Sunderland, of the Wabash freight office. Mr. Waterson is now a prosperous druggist in Canton, Ohio.

The Panhandle company has sold to the New York Equipment company a number of old coaches, some of which had been in service twenty-five to thirty years, but are still a very respectable looking coach.

S. E. Strayer, Nickel Plate fireman, has been promoted to a local freight run between Fort Wayne and Leipsic and assigned to engine 22. His place on through freight engine 10 has been filled by Fireman Weisell.

Engineer William C. Kelker, of the Grand Rapids and Indiana road, has gone to Kalamazoo, Mich., to join his wife and children. Thence they will go to Notre Dame to visit a week. Mr. Kelker is enjoying his annual vacation.

Probably the best long distance run of the age was that made by the Knickerbocker express, which left Indianapolis a few days ago three hours and thirty-five minutes late and pulled into New York just thirty minutes late.

Railroad earnings in July, as compiled by the Financial Chronicle, shows a very decided gain over July of 1894. The gross receipts of 122 roads were $37,912,830, an increase over July, 1894, of $5,357,586, or 15.97 per cent. The exhibit is the more gratifying from the fact that this increase has been made when the wheat and cotton crop was practically a failure, and the movement of both articles the lightest in any July in many years.

Railway superintendents are now busy preparing their reports to the interstate commerce commission. All items of importance must be given, including accidents to persons, including passengers, employes and trespassers.

It is stated that A. J. Hitt, assistant general superintendent of the Chicago and Rock Island, is to be appointed general superintendent, to succeed the late Charles Dunlap. Mr. Hitt entered the service of the Rock Island in 1892.

Pittsburg Engineer Frank Whitney this morning received a telegram from his wife, who is in Chicago, stating that her father died there last night. Mr. Whitney left on No. 37 for that city, where he will remain until after the funeral.

The new office, that of general yardmaster at Lafayette, to which George J. Martin was recently appointed, is thought to be merely a stepping stone to something better. Mr. Martin is said to be in high favor with the Wabash officials.

The Logansport Pharos says: "Patrick Cunningham, of Fort Wayne, was in attendance today at the funeral of the late Dennis Monahan. Mr. C. is employed in the Wabash boiler shops at Fort Wayne. He was formerly employed in the Panhandle shops here."

A scarcity of coal cars is complained of on Ohio, Indiana and Illinois roads, and a railway official says it is due to the fact that all box cars, many of which had been used in hauling coal, have been repaired and painted to be used in the grain service this fall and winter.

Charles Long, a passenger engineer having a run on the Nickel Plate east of Bellevue, passed through here yesterday, en route for Colorado, where he expects to spend a thirty days' vacation. Mr. Long formerly ran on the third district of the road and is well known here.

Governor Matthews and his staff will be in attendance at the celebration of the sixth-ninth anniversary of the founding of Peru, which takes place Tuesday, August 27. The street fair will also be in full force at that time. The Wabash announces that it will make a one-fare rate for the round trip on that occasion.

At the urgent request of the patrons of the road, the Wabash announces another cheap excursion to Toledo Sunday, August 25. The fare will be $1.50 for the round trip and, should the weather conditions be favorable, the crowd will simply be immense. The last excursion party numbered 800 and the coming one will double those figures.

Next Wednesday, Aug. 21, the Grand Rapids and Indiana road will sell excursion tickets to Dayton and Cincinnati at the popular price of $2 50 for the round trip. The tickets will be good to return thirty days after date of sale. In former years these excursions were largely patronized, and it is believed that this year will be no exception to the rule.

Engineer Thomas Tulley smashed the speed record, Eagle Lake to Fort Wayne, last night, when he made the run, including four stops, in forty-four minutes. The distance is thirty-seven miles, and allowing for the stops the actual running time was less than thirty-five minutes. The train was No. 38, in charge of Conductor Rohan, and it was late in leaving Eagle Lake on account of the oratorio. It consisted of five coaches, a mail car and a baggage car.

The Indianapolis Journal says: "The Pennsylvania company is certainly doing all in its power to make the Grand Army encampment a success. Yesterday it announced a one-cent flat rate to Louisville over the Louisville division, throwing off the twenty-five cents bridge charge, and on the day of the parade, September 11, will run nine special trains from Indianapolis, each train to stop at only a few stations, and then run as express over the other portion of the road."

The sale of the Pittsburg, Akron and Western to the Brice syndicate has formally been closed, the court issuing an order to turn the deed over to the Brice people, the latter paying $29,000 of disputed claims. C. M. Hackerdorn, general counsel of the Lake Erie and Western, is looking after legal matters in connection with the deal.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

SILVER MEN

Indulge in Much and Big Talk

At Their Conference, Held at Washington.

Cleveland and Carlisle Severely Censured.

Resolutions Adopted for Free Coinage of Silver at 16 to 1 Without Waiting for Action of Other Nations.

WASHINGTON, Aug. 15.—The silver democrats continued their conference at the Metropolitan hotel at 9 o'clock today. The committee on resolutions and program being unable to report when the meeting was first called to order, it was suggested that the conference should listen to speeches by those present.

C. F. Cochrane, editor of the St. Joseph, Mo., Gazette, addressed the conference. He said it seemed anomalous that a meeting such as the present should be called, for he knew of no doctrine of the party which was not in consonance with the purposes of this conference. He said that congress was the place to look for the declaration of the party's belief and he declared that gold monometallism would be more disastrous than war, pestilence and famine. It was important to settle first what was republicanism and what democracy; whether such men as ex Senator Thurman and Senator Harris, or Senator Sherman were to be leaders of democratic thought. He declared that the silver agitation would not die out, but would continue until the end for which it had been originated should be attained. Mr. Cochrane also declared against the perpetuation of national banks, whose tyranny, he said, was the greatest that any people would bear. The national banks were opposed to democracy. He was for a declaration for silver without regard to the prospect of success or failure at the polls.

Representative Neill, of Arkansas, announced his entire sympathy with the objects of the present conference. He wanted to see the free coinage of silver provided for at the next session, "regardless of the position of the distinguished citizen at the other end of the avenue," which sentiment was loudly applauded.

He declared the democratic party had no show in the next campaign if there were not a declaration for silver. Ex-Senator Fithian, of Illinois, denied that the free silver sentiment was dying out in that state. He said that all the democratic farmers, and 90 per cent. of the democrats of this state were silver men. He declared that Illinois would send a delegation to the next national convention favorable for free coinage at 16 to 1, independent of other nations. He declared that he had been defeated in the last election, not because of his position on silver, but because he had to bear the odium of an administration which was not democratic. (Applause.)

Representative Livingston, of Georgia, said that the time had come for another declaration of independence. "It is the purpose of the country from which I come," he said, "to prosecute and fight with their coats off and their sleeves rolled up and not to rest until the end. It was England's purpose," he asserted, "to control the United States, and finding herself unable to do so by arms, she had undertaken to do it by controlling our finances. Georgia was determined that the issuance of bonds should not continue." He declared the last bond contract, by which the Rothschilds had been engaged to protect our credit, the most disgraceful thing that had ever taken place in the history of our country. The cry for sound money was a subterfuge as all our people were for sound money. The prospect of an international conference is ridiculed.

Col. Casey Young, of Memphis, who conducted the correspondence incidental to the preparations for the conference, said he had written 4,000 or 5,000 letters in connection with the movement for the conference. He had corresponded with representative democrats from thirty-eight states, among them Senators Morgan, Berry, Blackburn, Walthall, George Blanchard, Cockrell, Voorhees and Turpie, besides a large number of members of the house, who have sent regrets at not being able to be present. Representative Bryan sent a letter saying there was "no room in this country for two republican parties," and Senator Morgan sent in a telegram saying, "I will follow the old guard wherever it leads."

Colonel Young asserted that four-fifths of the democrats were friendly to free coinage, and he believed a properly organized movement would be irresistible.

Speeches were also made by Senator Call, A. A. Lippscomb, of Washington; J. M. Hill, of Missouri; Representatives Jones, of Virginia, and Lockhart, of North Carolina, and Mr. Rodine, of Missouri. When Mr. Hill arose and some one asked his name, he said: "It is Hill, of Missouri—I thank God it is not Hill, of New York."

Mr. Hill criticised Mr. Cleveland's administration in severe terms, saying the president had betrayed the democratic party by a series of acts of perfidy and treachery which were without parallel, one of the principal of which acts consisted in his ignoring the bimetallic declaration in the last democratic platform. He declared there had been a bargain and sale by which the president of the United States had been turned over to the Jews of Europe and the gamblers of Wall street, the result of which would be that their children and their grandchildren would become hewers of wood and drawers of water. The bond transaction had been enough to consign Grover Cleveland and John G. Carlisle to everlasting political oblivion and shame. They would "go down to the ages hand in hand amid the execrations of mankind as two of the most stupendous frauds of the century." He asked the reporters present to make especial note of the sentence. He denounced Senators Brice and Gorman as disloyal to the democratic party.

Ex-Representative Turner, of New York, was introduced as a new convert. He said he was a silver man and meant to remain so. He declared that an intelligent effort in New York would do wonders and predicted that the nomination of free silver candidates would not weaken the ticket in the east.

Mr. Lockhart advocated a campaign of appeal to reason and depreciated a resort to abuse and denunciation. He controverted the idea that silver coinage was a controlling tenent in the populist party.

It was almost 12 o'clock when the committee on resolutions filed into the conference room and Senator Daniel was recognized to make the report of the committee's proceedings. This was divided into two sections, one consisted of an address to the democrats and the other a plan of organization. He said the address was the same as that adopted by the democrats of Texas, Missouri and Mississippi. The address was read by Governor Stone, of Missouri, and is as follows:

The address issued disclaims speaking with party authority, the assemblage being a voluntary one, but strongly represents the opinion of the conference that the party should declare for free coinage of silver. The address concludes as follows: Duty to the people requires that the party of the people continue the battle for bimetallism until its efforts are crowned with success; therefore, be it

Resolved, That the democratic party in national convention assembled should demand the free and unlimited coinage of silver and gold into primary or redemption money at the ratio of 16 to 1, without waiting for the action or approval of any other nation.

Resolved, Second, That it should declare its irrevocable opposition to the substitution for money of a panic-breeding, corporation credit currency, based on a single metal, the supply of which is so limited that it can be cornered at any time by a few banking institutions in Europe and America.

Resolved, Third—That it should declare its opposition to the policy and practice of surrendering to the holders of the obligations of the United States the option reserved by the law to the government of redeeming such obligations in either silver coin or gold coin.

Resolved, Fourth, That it should declare its opposition to the issuing of interest bearing bonds of the United States in the time of peace, and especially to placing the treasury of the government under control of any syndicate of bankers and the issuance of bonds to be sold by them at enormous profit for the purpose of supplying the federal treasury with gold to maintain the policy of gold monometallism.

With a view to securing the adherence to and readoption of the democratic financial policy above set forth by the democratic national convention to be assembled in 1896 and of the nomination of a candidate for the presidency well known to be in hearty sympathy therewith, we hereby pledge our mutual co-operation and urgently recommend to our democratic brethern in all the states to at once begin and vigorously and systematically prosecute the work of a thorough organization, and to this end the adoption of the plan of organization herewith submitted is recommended.

The part of the report dealing with the plan of organization above referred to was read by ex-Senator Jarvis, of North Carolina, and is as follows:

Believing that a large majority of the democratic voters of the United States are in harmony with the sentiments expressed in the foregoing address, and knowing that a full and free expression of their views can only be ascertained and made effective through proper organized efforts, we recommend the following as a plan for such organization:

First. There shall be a national committee of democrats who are in favor of both silver and gold as the money of the constitution, which shall be composed of one democrat from each state and territory and the District of Columbia and the executive committee herein after provided for.

Second. That until otherwise ordered by the national committee Senators Isham G. Harris, of Tennessee; James R. Jones, of Arkansas, and David Turpie, of Indiana, and Hons. W. J. Stone, of Missouri; W. H. Hinrichsen, of Illinois, and Casey Young, of Tennessee, be, and they are hereby constituted the executive committee shall have full power, authority, and it shall be their duty, at as early a day as possible, to appoint the members of the national committee as provided for and to fill vacancies in the same.

Third. That said national committee shall have full control and direction of the patriotic effort of the bimetallic democracy of the nation to secure in the next national democratic convention the maintenance of the time honored principles and policies of the democratic party, and when the national convention committee herein provided for is not in session, the executive committee shall have all the authority and discharge of all the duties hereby conferred upon the national committee.

Fourth. It shall be the duty of the members of the national committee from each state immediately after his appointment to take such steps as he may deem best to organize the bimetallic forces of his state, and it is earnestly recommended that in each county and election precinct of each state, bimetallic democratic clubs be organized, and for this purpose he may appoint such committees and sub committees and canvassers as he may deem best.

Fifth. That fully realizing the fact that this nor any other plan of organizing can be successful without a hearty co-operation of the voters themselves, we urge upon every voter in every state in the union who is in sympathy with this movement and he wishes to restore permanent prosperity to his home and country, to lend his aid and influence to perfecting this organization, and that each of them shall enroll himself in some club.

The report of the committee was adopted without opposition, and after listening to a few brief speeches the conference adjourned sine die. Senator Daniel made the last speech of the meeting. He said: "I will only say that I am a democrat, and being a democrat, I could not help being for the solid, honest and ancient gold and silver money of the democratic party. The party of the people must stand for the money of the people, and whom God hath joined together Plutocracy shall not put asunder."

Although he has taken very little rest, he seemed as fresh when he had finished as when he started. The American long distance championship was previously held by W. B. Twyman, of Chicago, with a record of 407 miles and 84 yards.

THE QUEEN'S SPEECH

Is Read in the English House of Parliament.

Her Views on the Armenian Question and the Atrocities Which Have Been Perpetrated in China.

LONDON, Aug 15.—After the house of commons reassembled today, the members were summoned to the house of lords with the usual formalities and the queen's speech was read by the lord chancellor, Baron Salsbury. It was as follows:

My Lord and Gentlemen:

The communications which I receive from foreign powers assure me of the continuance of their good will. I am happy to say that no international complication has arisen in any quarters calculated to endanger the peace of Europe. The war between China and Japan, which was in progress at the opening of the last session, has been brought to a conclusion by a peace which I trust will endure. I observed strict neutrality during the war and have taken no action in respect thereto except such as appeared to me likely to be favorable to a termination of hostilities. I deeply regret to say that the most atrocitious outrages upon a body of English missionaries are reported from the province of Fu Kien, in China. In reply to earnest representations addressed to the Chinese government by my direction, measures which I trust will prove effective, are being taken for the punishment of the murderers and all persons in any degree responsible for these crimes.

"The international troubles which have broken out in the Armenian district of Asiatic Turkey have been attended with horrors which have moved to indignation the Christian nations of Europe generally and my people especially. My ambassador and the ambassadors of the emperor of Russia and the president of the French republic, acting together, have suggested to the government of the sultan reforms which, in their opinion, are necessary to prevent a recurrence of constant disorder. These proposals are now being considered by the sultan and I am anxiously awaiting his decision."

The speech concludes with a reference to the incorporation of Bechuanaland into Cape Colony. The speech to the commons merely says that the estimates for the service of the year which were not voted at the last session will be laid before them.

The second portion of the speech says: "My Lords and Gentlemen—At this season of the year in will probably be found more convenient to defer to another session the consideration of any important legislative measures except those which are necessary to provide for the administrative charges of the year."

ALLEGED FORGER ARRESTED.

He Leads the Officers a Lively Chase Before Capture.

LEBANON, Ind., Aug. 15.—After a hunt of several days, James Sample, near Elizaville, has been captured and placed in jail to await trial for forgery. Last week he presented to Cashier Lane, of the First National bank, a note for $75, which he desired to sell. The man was unknown to the bank officials, but as the note was signed by Robert Stephenson, James Chalk and James King, prominent farmers of good, financial standing, it was purchased, and the young man promptly left town. The bank officials made inquiry, and soon learned that the note was a forgery. The police were notified, and began searching for Sample. Later it was discovered that he had purchased a buggy of Butler & Jett, and given two notes of $40 and $45 each, indorsed by James and Isaac Chalk, which were also forged. The officers followed Sample to Frankfort, and other surrounding towns, but he eluded them until Monday evening, when Policeman Caldwell captured him at his home, near Elizaville, but Sample escaped after being in custody but a few moments. He was afterward arrested at Kirklin, and he has made several attempts to escape since. When brought before Mayor Garrett he entered a plea of guilty, and was bound over to the circuit court. Sample has been in trouble before.

FIRE AT FINDLAY.

A Refinery Tank Explodes and Starts the Flames.

TOLEDO, Ohio, Aug. 15.—An explosion and resulting fire, entirely consumed the plant of the Peerless refinery, Findlay, with $60,000 loss, half insured. A benzine tank first exploded, cause unknown, and in an instant the building was wrapped in seething flames. Two stillmen, Wm. Adams and Wm. Bemis, were probably fatally injured. Ten stills caught next and one after the other exploded, sending flaming oil over the surrounding buildings and ground. Next ten tanks of crude oil, containing 12,000 gallons caught fire, sending up columns of flame 200 feet into the air. A mammoth tank of 30,000 barrels was fired into with a cannon, letting the oil run out, which caught fire. The oil is still burning and the smoke obscures the heavens for miles.

THE CASE CONTINUED.

Miss Lowry Asks Further Time to Procure Witnesses.

A Number of Firemen Promoted From Class C to Class B—A New Engine House.

The board of public safety held an important meeting last evening. Chief Hilbrecht was asked to purchase some new hose for the department. He reported, also, that Captain Schroeder, of engine house No. 1, had preferred charges against Fireman Ed Moody for absenting himself from the engine house without permission. Both men were cited to appear and explain matters more fully.

Estimates for the police and fire departments were considered and several recommended improvements talked over. The most important of these improvements will be a new engine house in South Wayne. The board will ask the council for money to put up the building, buy equipment and hire the necessary men to run it. The board is informed that the city owns a lot in South Wayne and Mr. Bash of the board of public safety, said if the lot was found to be properly located the new engine house would be built upon it, but if not, other property would be purchased for the purpose.

Chief Hilbrecht asked for two additional men for the fire department. The new telephone service will require one new man and he has a place for the other. Two or three more policemen are also wanted and the board will likely ask the council to vote the necessary funds for their employment. One of the new men, if any are granted, will be placed in Nebraska and one east of Hanna street, while places will also probably be made for others.

The charges preferred against Police Officer Bowers by Miss Lowry were to have received further investigation by the board last night. Miss Lowry appeared, however, and asked that the matter be continued a few days because, she said, she was unable to secure the presence of some of her witnesses last night.

Miss Lowry, at the last week's meeting, testified that she had been informed that Mrs. Egg had callers at her home and that it was not just the place for a young lady to room.

Mr. Bash last night asked Miss Lowry if she remembered having given this testimony.

"I do," replied the young lady.

"But you still remained there?"

"Yes, sir. I was warned about a week previous to the trouble."

"Who warned you?" Mr. Bash asked.

"Do you want the name of the person who warned me?" Miss Lowry inquired.

"Yes, give us the name."

"It was Mrs. Lutz, wife of Phillip Lutz, who has a restaurant on Calhoun street."

Miss Lowry has stated on several occasions that she left the home of Mrs Egg just as soon as possible after she had been warned by Mrs. Lutz.

The board concluded its meeting by promoting nine firemen from class C to class B. This gives the men an increase in pay from $50 to $55 per month. The firemen who receive this advance are Edward E. Bissell, Meinhart Swert, Benjamin R. Stanberry, Gustave Hilgeman, Lewis J. Niemann, Frank J. Torison, William Hensell, M. Baillie and Frank Albrecht.

The executive board of the Photographer's association of Indiana is in session in this city today. They are Messrs. Heimberger, Larrimore, Shores and Halloway. The object of the meeting is to arrange for the next meeting of the association.

JUMPED FROM A TRAIN.

Wild and Hazardous Leap of an Unknown Man.

Springs From Passenger Train No. 6, on the Nickel Plate—Supposed to be Insane.

Yesterday afternoon as Nickel Plate passenger train No. 5, due here at 6:20, was flying along at the rate of forty miles per hour, about thirty miles from Chicago, the occupants of one of the coaches were surprised to see a passenger suddenly stand up, kick out a pane of glass and spring head first from the window. It was all done so quickly that no one had a chance to grab the desperate man. Several passengers sprang up and grabbed at the bell cord, but there was some delay in stopping the train. When this was finally accomplished the passenger backed up to the point where the man had jumped off but no signs of the individual could be found. By the track, where the earth was moist, could plainly be seen the spot where the fellow had alighted, but he had disappeared as completely as though the earth had opened and swallowed him.

A search was made in the tall grass and bushes, and then the task was given up, as it was plainly evident the man had hidden somewhere in the marshes.

The curious part of the occurrence is the fact that the man was not killed outright. Who he is no one knows. Conductor Urbans brought the man's baggage to Fort Wayne and this morning Officer Dora Hardendorf examined it at the Nickel Plate baggage room. It contained a valise and a blanket in which was rolled a lady's jacket. In the valise was some underclothing, eight rolls of bandages, some strips of linen, a bunch of absorbing cotton, some salve and liniment. Aside from this there was a lady's bracelet about which was wrapped a bill head from a San Jose, Cal., firm.

It is supposed the man is an invalid en route east from California and suddenly became insane. Although the railway officials have made diligent inquiry, no traces of the missing man have yet been found.

This morning Tom Wilkinson went north to look for the man, who was seen sitting on the Michigan Southern tracks near Herville.

WITH A HAT PIN.

A Desperate Woman Makes an Attack On an Officer.

Sheriff Clausmeier Forced to Fight Against a Novel Weapon—Two Tough Characters.

Last night about 10 o'clock a telephone call was received from the western suburbs, stating that the sheriff and his deputies were wanted at the Getz brickyard, west of town, where two desperate characters, armed with revolvers, were demanding admittance to the Getz home. The sheriff, accompanied by Deputies Harrod and Wiley, went out in haste. Arriving at the home of Mr. Getz, they were informed that the man and woman had been induced to go to the barn and sleep and could be found there. When the officers located the couple they at once showed fight. Mr. Clausmeier started to place the woman under arrest, but she sprang upon him with the ferocity of a tiger and using a hat pin endeavored to stab the officer in the face. While engaged in quieting the excited woman her husband suddenly sprang onto Clausmeier from behind and for a time there was a merry war. The deputies rushed to the sheriff's assistance and the two prisoners were soon subdued. They were brought to the station house and locked up. This morning before Mayor Oakley the couple said their names were William and Blanch Davis and that their home was in Indianapolis. They claimed to be hunting work. Yesterday the couple was seen on the streets and both were intoxicated. No revolver was found on their persons, although they had threatened to shoot Mr. Getz. The mayor sent the couple to jail for fifteen days each.

A SAD CASE.

Mrs. S. E. Rogers, of Grand Rapids, was in the city last evening, en route home from Carlisle, Ind., with her son, Wilkie, who is insane. The poor woman had run out of funds and the night police took care of her son and saw that both were provided with passes for the north. Mrs. Rogers and her son left for the north at 2 o'clock this morning.

AN INCENDIARY.

Yesterday morning about 3 o'clock some one set fire to a straw stack about forty feet from the fine barn on the premises of August Chevillot, in Jackson township. Mr. Chevillot is an early riser and discovered the straw stack on fire. He hastily summoned his neighbors and after considerable difficulty succeeded in putting out the fire. The barn had a narrow escape.

SENATOR VEST, in an interview at Carlsbad, said that the silver question would never be dropped in America, until free coinage was secured.

THE county commissioners are doing all right in carefully considering the provisions of franchises giving corporations the right to use the public roads for a term of years.

SENATOR VOORHEES has completed his new lecture, "The Holy Sepulcher," which he will deliver for the first time at his alma mater, at Greencastle, on October 17. The senator will devote the proceeds of that lecture as his contribution to an alumni fund now being raised for DePauw university.

THE Island of Trinidad, about which Great Britain and Brazil are quarreling, is not the island from which asphalt for paving comes, but a poor, rocky excuse for an island off the coast of Brazil not worth fighting for except on account of principle. The asphalt producing West Indies island has long been in the undisputed possession of Great Britain, while the other has until recently not been thought worth even the trouble of planting a flag.

Americans in China.

The cause of "law and order" in China at present needs the active support of the United States. China has received some severe lessons in the past, but seems slow to learn. The course of instruction to be pursued must be sufficiently thorough to impress it upon the minds of the great Chinese nation, and people that an American, man, woman or child, missionary or other person, must be allowed absolute liberty to go anywhere in China in perfect peace and safety, now and forever. The lesson has been long needed and should be at once imparted. In speaking on this subject, the Indianapolis News says "There is not likely to be any necessity for war or a warlike demonstration in order to secure the safety of our people in China, but it may become necessary to put considerable pressure upon the Chinese government, and even to make some show of force. The fact that the missionaries are obnoxious to the natives, or that they are present in the empire of their own volition, is not important. They are American citizens, and so long as they behave themselves their rights must be respected. This is not an unreasonable demand. There is no evidence that China regards it as such. The attitude of this government must depend wholly upon the question as to whether the Chinese government is able and willing to furnish that measure of protection which the citizens of a friendly nation residing within the limits of the empire have a right to expect. No effort should be spared to bring it to a realization of its duty in the premises."

Governor Matthews.

Governor Matthews has made a good record as chief executive of the state and those people who think that he will not be a formidable candidate in the next democratic national convention for the presidency will be badly mistaken. He is today one of the most popular democrats in Indiana. It was predicted by some when he assumed the gubernatorial chair that he would not be equal to the emergency, but he has met every complexing situation that faced him, solving and deciding it just about right, and proving that he was fitted in every way for the high office with which the people of Indiana honored him. We have no other way of determining the qualities and the character of a man than by his actions in life, and, judging Governor Matthews by this test, he is made of the kind of stuff that the people admire in a public official. Events have proven, during the great railroad strike of a few years ago, in dealing with the law breakers at Roby and during the session of the last legislature, that he has the courage of his convictions and will do his duty, as he sees it, no matter what pressure may be brought to bear upon him to deviate from the path of right.

In speaking editorially of his candidacy for the presidency the Hancock Democrat, of Greenfield, in this state, says: "As governor of the state he has filled every expectation of his friends, and while his duties, owing to the strike and other difficulties that have arisen, have been perplexing, yet he has met every issue with broad and comprehensive views which mark the sound statesman. Governor Matthews is a growing man in every sense of the word, and since his induction into office has broadened rapidly, and today, is well equipped for the high office that it is the desire of the Democrat that he should fill. It seems to us that he is the logical candidate, owing to the fact that Indiana is one of the states that must be carried by the democracy in order to elect the next president."

The New Woman.

The new woman, who isn't any new woman at all, but just the same, nice, sweet old woman who always has been, always will be, the gentle, devoted wife and mother of men, wiser perhaps in the future, more capable of taking care of herself and her children, stronger, healthier and more active outside her home—this modern lady appears to be giving some people a lot of trouble in their minds. The Detroit Tribune thinks, for instance, that it will be well to put Maria Barberi to death because this will make the "new woman less aggressive."

Lady Violet Greville is perhaps almost as hard on what she calls the advanced woman. She points out some of the advanced one's glaring deficiencies as follows:

The advanced woman needs a good deal honor. If she is to compete with men in men's work, she must adopt the code which men have found effective and practical. She must learn to hold her tongue, to respect other people's business, other people's secrets and other people's letters. She must not pry or tell white lies or do little mean, underhand actions. This will necessitate a complete change in woman's prejudices, opinions and conduct and may lead finally to the creation of a new woman, but we doubt it.

There is one trouble about great institutions founded by living millionaires. When a professor teaches a theology or politics different from the theology or politics of the millionaire who runs the thing, that professor has to go.

POSTAGE STAMPS.

Their Sale in This City Nets Uncle Sam $34,000 a Year.

Interesting Figures Concerning the Big Amount of Mail Matter Handled by the Fort Wayne Postoffice.

A good thermometer of the business done in any city is the amount of letters and other mail matter handled by the postoffice department, and, taking this as a guide, there has been during the last several months an upward tendency of commercial interests in this city, for, in conversation with Postmaster W. W. Rockhill, THE SENTINEL was informed that the business done at the postoffice was constantly increasing, the last year having witnessed the largest sale of postage stamps of any year in the history of the Fort Wayne postoffice.

"What were the receipts of your office?" THE SENTINEL reporter asked.

"The amount realized from the sale of postage stamps, stamped envelopes, postal cards, etc.," he said, turning to some records on his desk, "was $69,420.96. This is larger than any previous year. Indeed, in this respect the receipts of the office show a marked and continued increase over what it was previous to five years ago, an average annual increase of $15,000. In the way of money orders issued, however, the business has not been as large as the preceding year."

"What amount of mail has your office handled during the last year?"

"It is estimated that there was dispatched 6,705,600 pieces of first class mail; 3,555,210 pieces of second, third and fourth class mail, and 2,148 special delivery letters, making a total of 10,262,958 pieces of mail handled. This does not include the mail handled by carriers. There were 672 errors made by the dispatching clerks; total pieces correct to each error charged, 15,269. There were issued during the year, 15,719 money orders, amounting to $103,789.64. There were 28,236 money orders paid, amounting to $240,696.82. There were received for dispatch 3,414 registered letters and for delivery 14,195. There were delivered by special messengers 4,410 letters. There were 949 letters advertised. There you have the business of the office for a year in a sort of a nutshell," he concluded.

"But how does Uncle Sam come out of it in the way of making or losing money," the reporter asked, "I mean by that, what were the revenues of the office to the government?"

"Well I'll tell you. As I said before the amount realized by the office from the sale of postage stamps, stamped envelopes, postal cards, etc., was $69,420.96. The expenditures, and I will give you the items in detail as they appear on the reports, were as follows: Salary of carriers, $13,995.16; salary of clerks, $11,110.06; salary of railway postal clerks, $4,236.11; salary of postmaster, $3,200; incidental expenses, $822.05; expense of free delivery, $1,398.01; expense of delivering special letters, $152.80, making a total of $35,119.19 and leaving a net revenue to the government of $34,301.77. This then, in the language of your question, is the amount that Uncle Sam has made out of this office during the last year."

Mr. Rockhill has been postmaster of Fort Wayne since September 1893. The preceding postmasters since 1834 were: Henry Rudisill, sr., Smallwood Noel, William Stewart, Samuel Stophlet, John G. Maier, Moses Drake, Peter P. Bailey, six months, Jacob J. Kamm, Frederick W. Keil, William Kaough, C. R. Higgins.

BIG RACES.

Match Trot at Buffalo Between Azote and Fantasy.

Azote Was the Winner—Good Racing at Indianapolis, Springfield, Galesburg, Ill., and Youngstown, O.

BUFFALO, Aug. 14.—The match between Azote and Fantasy was the drawing card at yesterday's grand circuit races.

El Rami took three straight heats in the 2:28 trot, with Valley Queen finishing second each time.

Geers did some masterly driving in the 2:20 trot, winning the $5,000 purse for the Village Farm with the black stallion Athanio, who was the favorite at even money. Miss McGregor had the pole in the first heat and carried the bunch to the half mile in 1:7½. Here Geers brought Athanio to the front, and at the stretch he was in line with Lady Wilton and Miss McGregor. The race to the wire was exciting.

Friday Corbett will box four rounds with his sparring partner on the track, and Saturday Fitzsimmons will box and punch the bag. Azote will be taking to Chicago to race Bessetts if arrangements can be made. Summaries:

Special match; no purse named—Azote, first; Fantasy, second. Time, 2:09¾, 2:12¾.

2:28 trot, purse $3,000—El Rami, first in straight heats; Valley Queen, second; Judge Rice, third. Time, 2:15½, 2:16, 2:16½. Rosetta Soap, Carrillon, Burlingame, Anna Mace, Lucil Glenn, Villers also started.

2:35 class, trotting; purse, $1,000, for two-year-olds—Tommy Britton, first; Crescent Hill, second; Fred S. Moody, third. Best time, 2:15¾.

INDIANAPOLIS, Ind., Aug. 15.—Three thousand people attended the races yesterday. The track was in excellent condition and everything was favorable to fast time. The only reason faster time was not made was because the winners were not pushed harder.

Great interest is being taken in the 2:09 pace which comes off tomorrow between Frank Agan and Fidol. Coleridge will not start. Agan's new owner said yesterday he would go three heats better than 205, and a sensational race is expected. It would not cause much surprise to see the race record of last year eclipsed. Summaries:

2:50 Trotting; Purse, $00—Wiggins, first; Silver Lake, second; Bell Esprit, third. Time—2:24½, 2:21½. Baroness Marguerite, Bell Esprit, Espey Boy, Joe Calk, Alan, Nobby also started.

2:25 Class Pacing. Purse $1,000—Earlmont, 3, 1, 1, 1; Belle Orr, 1, 3, 3, 3; Major Hal, 4, 4, 2, 2. Best time, 2:09½. Antidote, W. H. G., Margery, Arrows, jr., also started.

2:24 Class Trotting. Purse $300—Franklin, first; Lynn Bourbon, second; Atlantic, third. Best time, 2:18½. Periwinkle, Dollikins, Taylor, Alto, Guy Princeton, Silver Maid, Exploit, also started.

SPRINGFIELD, Ohio, Aug. 15.—There were 2,000 people at the Driving club races yesterday, and they waited for eight bookmakers to begin business, but as on Tuesday, the presence of the police prevented. Summaries:

First Race, 2:28 Trot, Purse $300, Unfinished—Billy C, first; Mad River Bell, second; Bendowne, third. Best time, 2:23½.

Second Race, 2.25 Pace, Purse $400—Bourbon P., first; Billy West, second; Plutone, third. Best time, 2:18½

Third Race, 2:55 Pace, Purse $300—Zabod, first; G. A. Barger, second; Belle K., third. Best time, 2:19½

YOUNGSTOWN, Ohio, Aug. 15.—About 6,000 people attended the second race meet at Warren today. Hal Pointer was unable to make good time on the half mile track. Rubenstein, on account of travel, did not enter. Summaries:

2:50 trot, purse $300—Jim R., first; J. G. Newcomb, second; Red Aaron, third. Best time, 2:26½.

2:28 trot, purse $350—Clara Wilkes, first; Diana, second; Brooklawn, third. Best time, 2:24½.

Free-for-all pace, purse $1,000—Raven, first; Ben D., second; Hal Pointer, third. Best time, 2:11½.

Magnolia goes to beat the half mile record tomorrow.

2:18 trot—Conductor, first; Joe Wonder, second; Nubbins, third. Best time, 2:13½.

2:26 trot—Katrina Bell, first; Tornado, second; Redleaf, third. Best time, 2:16.

Mamie Giles, of Evansville, a desperate woman, attacked Frank Lease with a knife, stabbing him slightly as he escaped by running. Soon after she accosted a woman on the street, and as Patrolman Muth stepped forward to prevent additional violence, she struck the officer in the stomach and again on the arm, before she was knocked senseless with a blow from his mace. The Giles woman was removed to the City hospital in an unconscious condition. Patrolman Muth is badly hurt.

Horsford Park is a little village with fifty or sixty inhabitants, located on the railway, seven miles from Crown Point. Night before last the villagers attended a dance, and some unknown person placed arsenic or strychnine in the water used for drinking purposes. A number of persons were alarmingly prostrated, among them Charles Williams, manager of the Horsford Park land company; Miss Reeig and two young ladies from Chicago. Twenty persons altogether were affected, four of whom cannot live. Mr. Williams says that he has several enemies at the park, and he is confident that an attempt was made upon his life. There have been several grave crimes in that vicinity within the past five years. Two years ago a man eighty-seven years old was chained to a tree, where he starved to death, all on account of a few hundred dollars. His murderers were never arrested. About the same time the remains of five persons were found buried in the muck, indicating that an entire family had been killed.

STARTLING DISCOVERY.

Which May Explain the Disappearance of a Girl.

TWEED, Ont., Aug. 15.—On the 16th of August last, Annie Callender, a young English girl, living near Peterboro, disappeared leaving no trace. Today a strange discovery was made. Edward Dowdell, section foreman at Sheffield station, found under the timbers of a bridge a few miles from Tweed a piece of plain board about thirteen inches square on which was written the following statement:

SHEFFIELD, April 26, 1895.

To all the world—a greeting.

This is to certify that I did on the night of the 16th of August, 1894, murder Annie Callander, a young English girl, in the little cemetery at Peterboro, and with a piece of rope and railroad iron, I sank her dead body in the lake. I did it to hide crime. I feel that God will never forgive me for it. I cannot rest day or night. I would like her body taken up and buried. (Signed) "F. R." The case is in the hands of the detectives.

Murderer Confessed.

ST. LOUIS, Aug. 15.—It will be recollected that early in last May State Senator Peter Morrissey, of this city, was shot and killed in the house of Maud Lewis, said to be the senator's mistress, and that the Lewis woman was indicted for the murder. It now transpires that Maude Lewis has a husband named Albert Andrews, and that he had made a confession to having killed Morrissey. He wants to be arrested and have Maude released, but the authorities have taken no action in the case yet.

Mrs. O. W. Bale, of Goshen, Ind., is the guest of Mr. and Mrs. L. B. Husheur, of 27 Grand street.

THE TRIAL OF HOLMES.

The Alleged Murderer of the Williams Girls and Others.

Will Take Place at Chicago—Result of a Lengthy Conference Held at Philadelphia.

PHILADELPHIA, Aug. 15.—It has been practically decided that H. H. Holmes, the alleged murderer of Minnie and Nannie Williams, B. F. Pietzel and half a dozen others, will go to Chicago for trial for the murder of the Williams girls. This, it is said, was the outcome of a lengthy conference held in this city today between Lawyer Capps, of Fort Worth, Texas, and District Attorney Graham. After the conference Lawyer Capps said that he had urged the district attorney to allow Holmes to go to Chicago, and Mr. Graham could hardly refuse to grant his request.

LIQUOR DEALERS.

State Meeting Called to Consider the Nicholson Law.

The liquor dealers of the state are not asleep as far as opposition to the Nicholson law is concerned as will be seen by the following letter which has been sent out from Indianapolis by the Indiana State Liquor league to the saloon men throughout the state:

Headquarters of the Indiana State Liquor League.

INDIANAPOLIS, Ind., Aug. 10, 1895.

It must be apparent to you, as it is to every liberal-minded citizen of Indiana, that this state has entered upon an era of fanatical persecution to the retail liquor dealers that, unless it be checked, will make it impossible for other than a whisky-druggery or speak-easy to exist; in fact, the Nicholson bill puts a premium on and protects these places at present; nor is the end yet in sight. The Good Citizens' league, of which Mr. Nicholson is president, is organizing all over the state, and in the cities it has even ward and precinct branches, so that you must recognize the importance of this call to the saloonkeepers to be present at the state liquor league convention that meets in the English hotel September 4, and to which you are most respectfully invited.

We would like, if possible, before you come, you would call a meeting of the saloonkeepers in your vicinity and get all their views on this subject, and endeavor to effect a local organization to co-operate with those who are already organized.

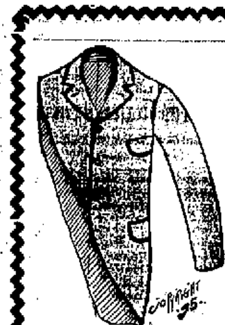

If you have an organization in your locality send one delegate for every ten members or fraction thereof. Kindly notify the state secretary of the league by mail and he will send you delegate badges, and our reception committee will recognize you at the depot. This applies to individuals as well as regularly appointed delegates. Our state secretary will gladly give you any other information you may desire on the matter if you will address him.

Trusting that you will aid us by your presence and advice on this occasion, I am, with respect, yours fraternally, JOHN WELLACHER, President The Indiana State Liquor League.

J. FRANK CALLEN, Secy. I. S. L. L., 33 North Liberty street.

Please answer promptly.

HEBERT'S FAST RUN.

Covered Sixty-One Miles in Fifty-Eight Minutes.

Best Long Distance Run Since the Famous Run of Jack Christie. The Wabash's Big Excursion.

Oliver Hebert, at the throttle of Pennsylvania engine No. 48, made a phenomenal run last evening, when he covered the space between Clark's Junction and Plymouth, a distance of sixty-one miles, in fifty-eight minutes. The train was a special, consisting of General Manager Joseph Wood's private car, with that gentleman aboard, and one coach. It left Chicago over an hour behind No 8, and Mr. Hebert had instructions to overtake the latter and run as the second section of the same, and he carried out the instructions to the letter. No. 8 was overtaken at Warsaw, and from that point to Fort Wayne the special ran on scheduled time. The fifteen miles between Wheeler and Wanatah were traveled in twelve minutes, the best time ever made on that portion of the line. Mr. Hebert's long distance run, sixty-one miles in fifty-eight minutes, comes nearly up to the record established by the late engineer Jack Christie, and beats the run of Engineer Andy Koontz, who made an engine cover sixty-seven miles in sixty-six minutes.

A NARROW ESCAPE.

General Manager Joseph Wood's private car barely escaped serious damage by fire this morning. While it was standing at the depot awaiting the arrival of No. 6, the car inspectors discovered smoke issuing from the roof over the culinary department, and investigation revealed the fact that the woodwork and trimmings in the kitchen were ablaze. The alarm was given and Capt. B. H. Harrison and several others hastened from the shops, carrying chemical extinguishers, and soon put out the fire, but not before the interior of the car was damaged to the extent of $100.

THE PROFIT IN EXCURSIONS.

It will be somewhat of an eye-opener to competing eastern lines to learn that the Wabash Niagara Falls excursion started out of Chicago yesterday afternoon in four sections, containing 1,400 passengers, says the Chicago Herald. In addition, between 250 and 300 passengers who could not get on the excursion trains were accommodated on the regular trains last night. It may be an additional eye-opener for competing lines to learn that the Grand Trunk has already sold over 1,500 tickets on its excursion for the 16th and will probably haul 2,000 passengers. Competing lines which have scoffed at any profit in these excursions will do some very unsatisfactory figuring on the results. In a burst of confidence last night Assistant General Passenger Agent Palmer, of the Wabash, admitted the excursion trains carried 2,000 people. A loathsome competitor counted up his trains, however, and made the count as noted above. With 1,600 passengers, the Wabash took in $12,000. An outside figure for running the trains to and from the falls is $2,000. The excursion may have hurt the regular business of the Wabash $2,000 and all other expenses were under $500. There is thus a clear profit of at least $8,500 in the excursion. With these figures in mind it may seem profitable to other roads to indulge themselves in like plans.

BRIEF MENTION.

Charles T. Strawbridge, purchasing agent for the Bass works, and his sons, John and Willie, went to Bucyrus, Ohio, yesterday to visit Mr. Strawbridge's parents.

Machinist Bob Taylor, of the Bass works, is on the sick list.

George Dougherty, fireman on the Nickel Plate, is taking a lay off.

The Pennsylvania and the Grand Rapids pay cars will arrive in the city tomorrow.

The Nickel Plate is stocking up its coal docks here and at other points this week.

Blacksmith Henry Rix has resumed his duties in the Bass shops after a week's illness.

Nelson Howe, Frank Binkley and T. Z. Babcock, of the electric works, are sick and off duty.

W. G. Miller has resigned a position in the Wabash shops to engage at his old trade, that of baking.

After two weeks' illness E. H. W. Dorate has returned to his duties in the Pittsburg plaining mills.

Manager C. M. Crim, of the Standard Wheel works, was called to Bluffton today on business for the company.

Machinist David Judy has recovered from a week's illness and this morning resumed work in the Pittsburg shops.

F. Benecke, Peter Gnaw, Peter Junk, D. Collins and Louis Smith, of the Pittsburg car shop, are sick and off duty.

Henry Lose has returned from Philadelphia, where he spent a month, and is again working in the Pittsburg shops.

There were sixty people in the party which went to Warsaw this morning to attend the celebration of the White institute.

The Big Four now has sixty-four Wagner cars in regular service. Five years ago but sixteen were running on these lines.

Brakeman E. G. Stacey has quit the service of the Nickel Plate and will return to his Ohio home to engage in other business.

Conductor J. M. Wells, of the east Nickel Plate local, is taking a lay off and Conductor C. Charles is running the train today.

F. D. Darlington, superintendent of the Indianapolis division of the Pennsylvania lines, who has been quite ill for some days, is reported better.

Stephen Schellenberger, foreman of the Pittsburg car inspectors, resumed work this morning, after an illness of some days. He is troubled with stomach disease.

Engineer J. G. Carman and Fireman J. Singleton, of the Pittsburg, are off duty on account of sickness. Fireman A. B. Hunter, of the same road, is off duty with an injured hand.

Yesterday the electric works sent the machinery for a 1,500 light plant to Goshen, Ind., and today the machinery for a plant of the same capacity was forwarded to Angola, Ind.

W. F. Waterson, formerly a conductor on the Nickel Plate road, is the guest of Cashier J. E. Sunderland, of the Wabash freight office. Mr. Waterson is now a prosperous druggist in Canton, Ohio.

The Panhandle company has sold to the New York Equipment company a number of old coaches, some of which had been in service twenty-five to thirty years, but are still a very respectable looking coach.

S. E. Strayer, Nickel Plate fireman, has been promoted to a local freight run between Fort Wayne and Leipsic and assigned to engine 22. His place on through freight engine 10 has been filled by Fireman Weisell.

Engineer William C. Kelker, of the Grand Rapids and Indiana road, has gone to Kalamazoo, Mich., to join his wife and children. Thence they will go to Notre Dame to visit a week. Mr. Kelker is enjoying his annual vacation.

Probably the best long distance run of the age was that made by the Knickerbocker express, which left Indianapolis a few days ago three hours and thirty-five minutes late and pulled into New York just thirty minutes late.

Railroad earnings in July, as compiled by the Financial Chronicle, shows a very decided gain over July of 1894. The gross receipts of 122 roads were $37,912,830, an increase over July, 1894, of $5,357,580, or 15.97 per cent. The exhibit is the more gratifying from the fact that this increase has been made when the wheat and cotton crop was practically a failure, and the movement of both articles the lightest in any July in many years.

Railway superintendents are now busy preparing their reports to the interstate commerce commission. All items of importance must be given, including accidents to persons, including passengers, employes and trespassers.

It is stated that A. J. Hitt, assistant general superintendent of the Chicago and Rock Island, is to be appointed general superintendent, to succeed the late Charles Dunlap. Mr. Hitt entered the service of the Rock Island in 1892.

Pittsburg Engineer Frank Whitney this morning received a telegram from his wife, who is in Chicago, stating that her father died there last night. Mr. Whitney left on No. 37 for that city, where he will remain until after the funeral.

The new office, that of general yardmaster at Lafayette, to which George J. Martin was recently appointed, is thought to be merely a stepping stone to something better. Mr. Martin is said to be in high favor with the Wabash officials.

The Logansport Pharos says: "Patrick Cunningham, of Fort Wayne, was in attendance today at the funeral of the late Dennis Monahan. Mr. C. is employed in the Wabash boiler shops at Fort Wayne. He was formerly employed in the Panhandle shops here."

A scarcity of coal cars is complained of on Ohio, Indiana and Illinois roads, and a railway official says it is due to the fact that all box cars, many of which had been used in hauling coal, have been repaired and painted to be used in the grain service this fall and winter.

Charles Long, a passenger engineer having a run on the Nickel Plate east of Bellevue, passed through here yesterday, en route for Colorado, where he expects to spend a thirty days' vacation. Mr. Long formerly ran on the third district of the road and is well known here.

Governor Matthews and his staff will be in attendance at the celebration of the sixth-ninth anniversary of the founding of Peru, which takes place Tuesday, August 27. The street fair will also be in full force at that time. The Wabash announces that it will make a one-fare rate for the round trip on that occasion.

At the urgent request of the patrons of the road, the Wabash announces another cheap excursion to Toledo Sunday, August 25. The fare will be $1.60 for the round trip and, should the weather conditions be favorable, the crowd will simply be immense. The last excursion party numbered 500 and the coming one will double those figures.

Next Wednesday, Aug. 21, the Grand Rapids and Indiana road will sell excursion tickets to Dayton and Cincinnati at the popular price of $2.60 for the round trip. The tickets will be good to return thirty days after date of sale. In former years these excursions were largely patronized, and it is believed that this year will be no exception to the rule.

Engineer Thomas Tulley smashed the speed record, Eagle Lake to Fort Wayne, last night, when he made the run, including four stops, in forty-four minutes. The distance is thirty-seven miles, and allowing for the stops the actual running time was less than thirty-five minutes. The train was No. 38, in charge of Conductor Rohan, and it was late in leaving Eagle Lake on account of the oratorio. It consisted of five coaches, a mail car and a baggage car.

The Indianapolis Journal says: "The Pennsylvania company is certainly doing all in its power to make the Grand Army encampment a success. Yesterday it announced a one-cent flat rate to Louisville over the Louisville division, throwing off the twenty-five cents bridge charge, and on the day of the parade, September 11, will run nine special trains from Indianapolis, each train to stop at only a few stations, and then run as express over the other portion of the road."

The sale of the Pittsburg, Akron and Western to the Brice syndicate has formally been closed, the court issuing an order to turn the deed over to the Brice people, the latter paying $29,000 of disputed claims. C. M. Hackerdorn, general counsel of the Lake Erie and Western, is looking after legal matters in connection with the deal.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.
